### Apple Magic Mouse 2 User Manual

## Welcome to your Apple

### Magic Mouse 2

Your Apple Magic Mouse 2 has a rechargeable battery and uses Bluetooth® technology to connect wirelessly to your Mac.

### This guide shows you how to use your

Magic Mouse 2, including pairing, customization, recharging the battery, and updating OS X.

### Update your software

To use your Magic Mouse 2 and its full range of features, update your Mac to OS X v10.11 or later. To update to the latest version of OS X, choose Apple menu > App Store to see if there are updates. Follow the onscreen instructions to update OS X.

### Set up your Magic Mouse 2

Use the Lightning to USB cable that came with your mouse. Plug the Lightning end of the cable into the Lightning port on the bottom of your mouse. Plug the USB end of the cable into a USB port on your Mac. Slide the on/off switch to on (so you see green on the switch). Your mouse will pair automatically with your Mac. After the mouse is paired, disconnect the cable to use your mouse wirelessly.

### Remove a pairing

After you pair your Magic Mouse 2 with a Mac, you can pair it again with a different Mac. To do this, remove the existing pairing and then pair the mouse again using the setup instructions in the previous section.

#### To remove a pairing

1. Choose Apple menu > System Preferences, then click Bluetooth.
2. Select the mouse, then click the Delete button next to the mouse name.

### Customize your Magic Mouse 2

Your Magic Mouse 2 has a Multi-Touch surface you can use to right-click, left-click, scroll, and swipe.

#### To customize your mouse

1. Choose Apple menu > System Preferences, then click Mouse.
2. Click Point & Click for these options:
  - Scroll direction: natural: Select this option to
    - move the contents of a window in the same direction as your fingers.

- Secondary click: Select this option, then choose “Click on the right side” or “Click on the left side” to secondary (or Control) click items on your screen.
  - Smart zoom: Select this option to double-tap with one finger to zoom in or out.
3. Click More Gestures for these options:
- Swipe between pages: Select this option and choose “Scroll left or right with one finger,” “Swipe left or right with two fingers,” or “Swipe with one or two fingers” to move between pages in a document.
  - Swipe between full-screen apps: Select this option to move between apps in full-screen.
  - Mission Control: Select this option to double-tap with two fingers to enter Mission Control.

## **Rename your Magic Mouse 2**

Your Mac automatically gives your Magic Mouse 2 a unique name the first time you pair it. You can rename it in Bluetooth preferences.

To rename your mouse:

1. Choose Apple menu > System Preferences, then click Bluetooth.
2. Control-click the mouse name, then choose Rename.
3. Enter a name and click OK.

## **Recharge the battery**

Use the Lightning to USB cable that came with your mouse. Plug the Lightning end into the Lightning port on the bottom of your mouse, and the USB end into a USB port on your Mac or a USB power adapter. To check the battery status, choose the Apple menu > System Preferences, then click Mouse. The battery level is shown in the lower-left corner.

**Note:** When you aren't using your Magic Mouse 2, it goes to sleep to conserve battery power. If you won't be using your mouse for an extended period, turn it off to conserve even more power.

## **Clean your Magic Mouse 2**

To clean the outside of your mouse, use a lint-free cloth. Don't get moisture in any openings or use aerosol sprays, solvents, or abrasives.

## **Ergonomics**

When using your Magic Mouse 2, it's important to find a comfortable posture, change your position often, and take frequent breaks. For information about ergonomics, health, and safety, visit the ergonomics website at [www.apple.com/about/ergonomics](http://www.apple.com/about/ergonomics).

## **More information**

For more information about using your mouse, open Mac Help and search for “mouse.” For support and troubleshooting information, user discussions, and the latest Apple software downloads, go to [www.apple.com/support](http://www.apple.com/support).

## **Regulatory Compliance Information**

## **FCC Compliance Statement**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This

device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. See instructions if interference to radio or television reception is suspected.

## **Radio and Television Interference**

This computer equipment generates, uses, and can radiate radio-frequency energy. If it is not installed and used properly—that is, in strict accordance with Apple's instructions—it may cause interference with radio and television reception.

This equipment has been tested and found to comply with the limits for a Class B digital device in accordance with the specifications in Part 15 of FCC rules. These specifications are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. You can determine whether your computer system is causing interference by turning it off. If the interference stops, it was probably caused by the computer or one of the peripheral devices. If your computer system does cause interference to radio or television reception, try to correct the interference by using one or more of the following measures:

- Turn the television or radio antenna until the interference stops.
- Move the computer to one side or the other of the television or radio.
- Move the computer farther away from the television or radio.
- Plug the computer into an outlet that is on a different circuit from the television or radio. (That is, make certain the computer and the television or radio are on circuits controlled by different circuit breakers or fuses.)

If necessary, consult an Apple Authorized Service Provider or Apple. See the service and support information that came with your Apple product. Or, consult an experienced radio/television technician for additional suggestions. Important: Changes or modifications to this product not authorized by Apple Inc. could void the EMC compliance and negate your authority to operate the product. This product has demonstrated EMC compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables (including Ethernet network cables) between system components to reduce the possibility of causing interference to radios, television sets, and other electronic devices. Turn the television or radio antenna until the interference stops. Responsible party (contact for FCC matters only): Apple Inc. Corporate Compliance 1 Infinite Loop, MS 91-1EMC Cupertino, CA 95014

## **Canadian Compliance Statement**

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

## **EU Compliance Statement**

Apple Inc. hereby declares that this wireless device is in compliance with the essential requirements and other relevant provisions of the R&TTE Directive. A copy of the EU Declaration of Conformity is available at [www.apple.com/euro/compliance](http://www.apple.com/euro/compliance).

Apple's EU representative is Apple Distribution International,  
Hollyhill Industrial Estate, Cork, Ireland.  
Russia, Kazakhstan, Belarus

## **Apple Magic Mouse 2 Class 1 Laser Information**

The Apple Magic Mouse 2 is a Class 1 laser product in accordance with IEC 60825-1 A1 A2 and 21 CFR 1040.10 and 1040.11 except for deviations pursuant to Laser Notice No. 50, dated July 26, 2001.

**Caution:** Modification of this device may result in hazardous radiation exposure. For your safety, have this equipment serviced only by an Apple Authorized Service Provider.

## **Apple and the Environment**

Apple Inc. recognizes its responsibility to minimize the environmental impacts of its operations and products. More information is available on the web at [www.apple.com/environment](http://www.apple.com/environment).

### **Battery**

Your Magic Mouse 2 contains no user-serviceable parts. Don't attempt to open or disassemble your Magic Mouse 2 or remove, crush, or puncture the battery in your Magic Mouse 2, or expose it to high temperatures or liquids. Disassembling your Magic Mouse 2 may damage it or may cause injury to you. The lithium-ion battery in your Magic Mouse 2 should be serviced or recycled by Apple or an authorized service provider, and disposed of separately from household waste. For information about Apple lithium-ion batteries, go to [www.apple.com/batteries](http://www.apple.com/batteries).

Taiwan

### **Disposal and Recycling Information**

When this product reaches its end of life, please dispose of it according to your local environmental laws and guidelines. For information about Apple's recycling programs, visit [www.apple.com/environment/recycling](http://www.apple.com/environment/recycling).

### **European Union—Disposal Information**

The symbol above means that according to local laws and regulations, your product and/or its battery shall be disposed of separately from household waste. When this product reaches its end of life, take it to a collection point designated by local authorities. The separate collection and recycling of your product and/or its battery at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment.
