Settings

In the settings on your device, select “**Mobile Data**”.

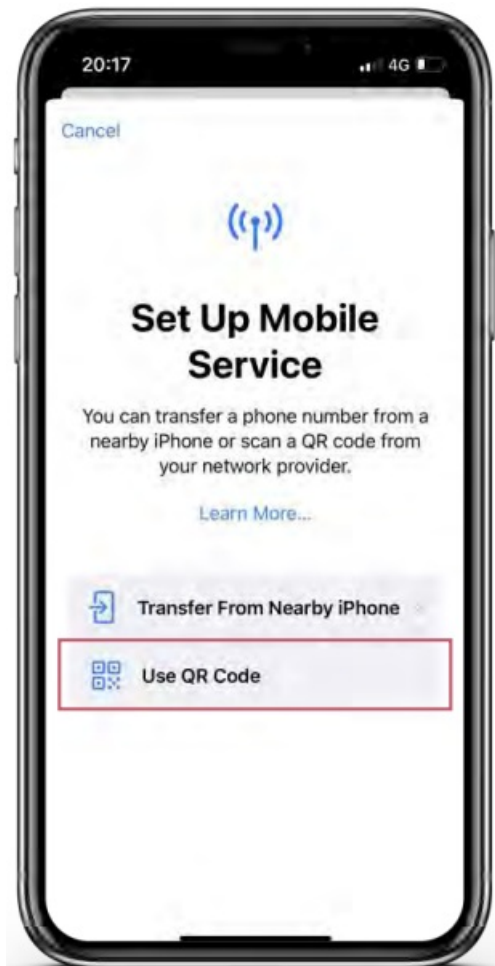

Mobile Data

Once you are in the “Mobile Data” screen, select **“Add eSIM”**.

Add eSIM

From the “Set Up Mobile Service” screen, select **“Use QR Code”**.

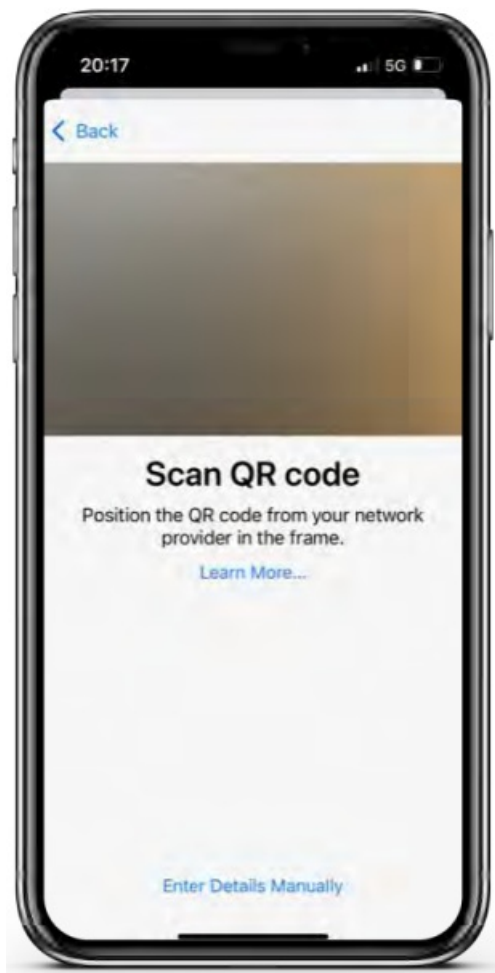

Scan QR Code

The device camera will then open up on screen.
Use the camera to scan the QR code.

If for any reason you are unable to scan the QR Code, you can select “Enter Details Manually” to input the Manual Activation Codes.

The rest of the journey is the same for both QR Code and Manual Code activation.

The device will register the QR code once it is in the camera frame.

Activate eSIM

Click “Continue” to activate and install the eSIM to the device.

eSIM Activating

The eSIM will then begin to activate and install.
This can take a few minutes.

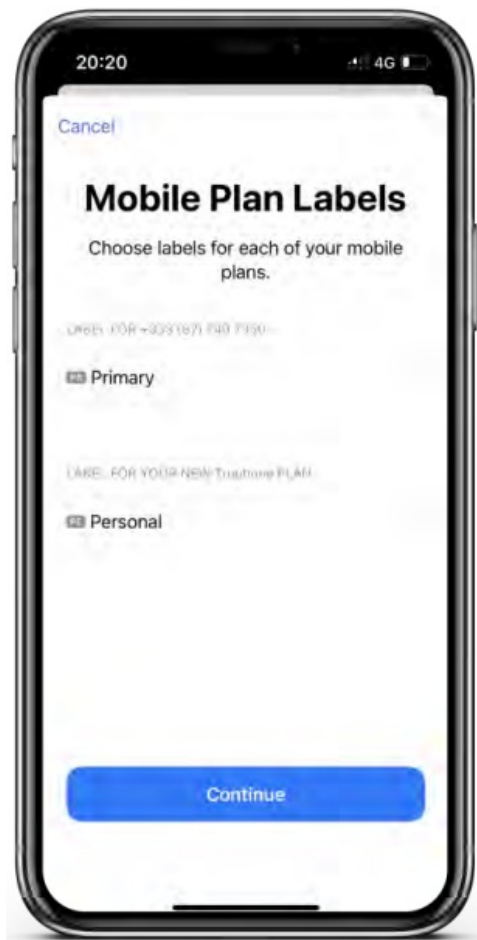

Mobile Plan Labels

Once the activation is complete, you can choose what you want to use your new eSIM for.

Mobile Plan Labels allow you to choose a name or label for your new eSIM so it is easily identifiable.

Once you have done this, click **“Continue”**.

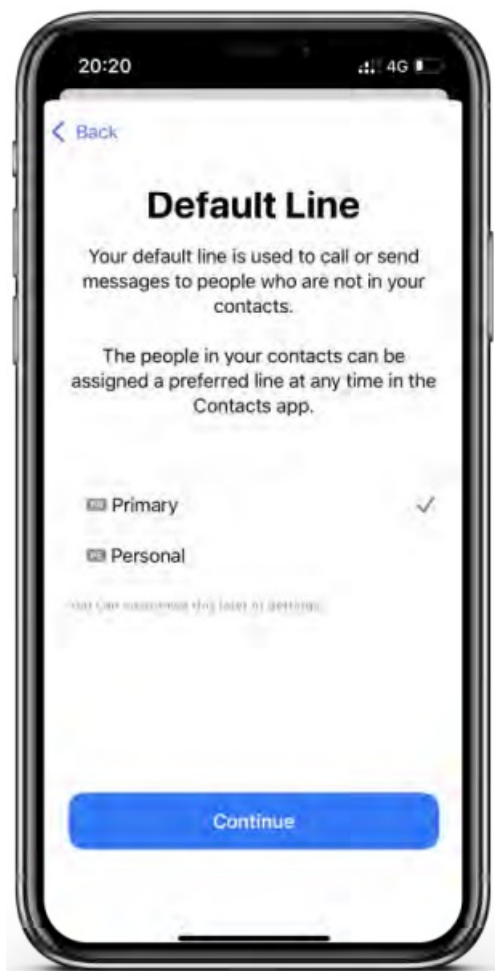

Default Line

You will be asked to choose which SIM you wish to use for your Default Line, which is used for sending SMS messages and making calls.

You can choose between your new eSIM and any other SIMs that are currently active in your device.

Once you have done this, click “**Continue**”.

i Message & Face Time

You will be asked to choose which SIM you wish to use for your iMessage and FaceTime.

You can choose between your new eSIM and any other SIMs that are currently active in your device.

Once you have done this, click “**Continue**”.

Mobile Data

You will be asked to choose which SIM you wish to use for your Mobile Data.

You can choose between your new eSIM and any other SIMs that are currently active in your device.

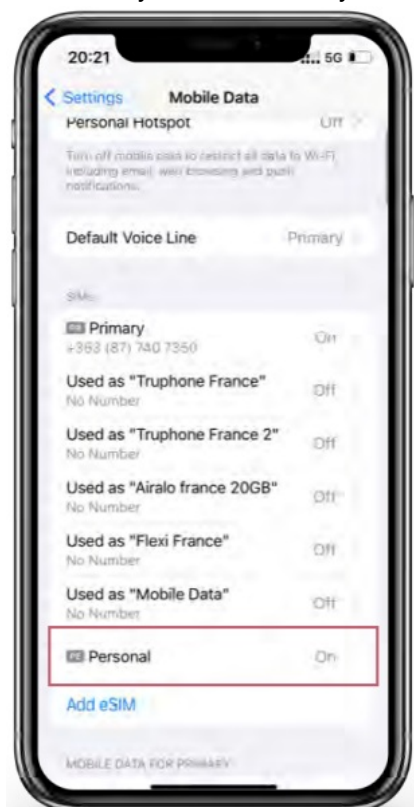

Once you have done this, click "Continue".

eSIM Activated and Switched On

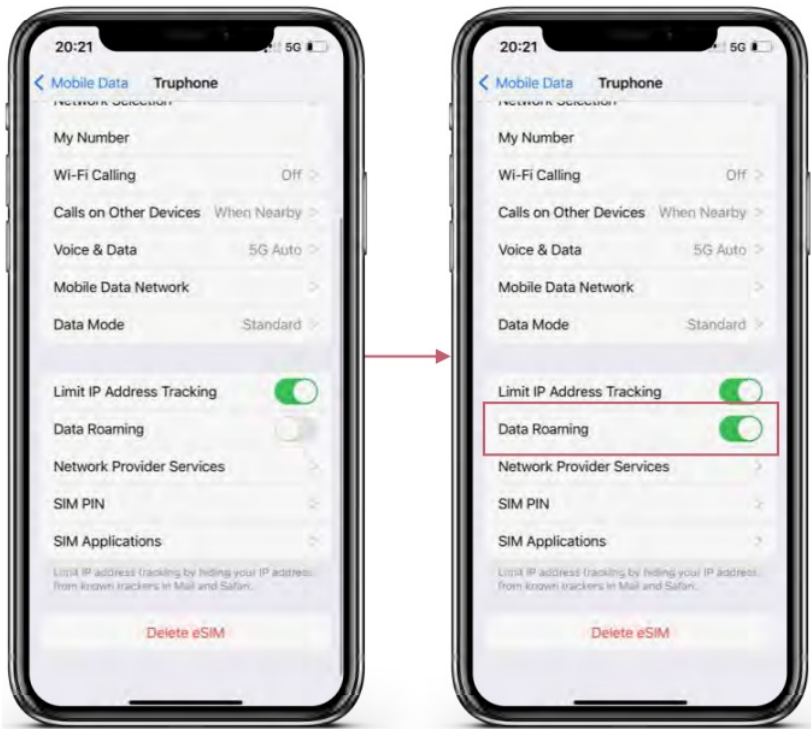

Once set up is complete, you can return to the “Mobile Data” screen to see which of your SIMs are active and inactive.

From here you can click on your active eSIM to see more details about it.

eSIM Details – Data Roaming

To turn on Mobile Data for your new eSIM, you must click on the eSIM in the “Mobile Data” screen and switch Data Roaming to on.
