**Apple USB-C 140W Power Adapter** 

# **Product Specifications**

• Product Name: USB-C 140W Power Adapter

Power Output: 140W
 Input: 28 V (DC)/5 A

## **Product Usage Instructions**

#### **Charging Your Device**

Use the Apple 140W USB-C Power Adapter along with a USB-C cable (not included) to charge your device.

#### **Connecting the Power Adapter**

- 1. Connect a USB-C cable to the power adapter.
- 2. Extend the electrical prongs (if necessary).
- 3. Plug the power adapter firmly into a power outlet.

#### **Device Connection**

- Ensure the power outlet is easily accessible for disconnecting.
- Connect the other end of the cable to your device.

### **INTRODUCTION**

- Use the Apple 140W USB-C Power Adapter and a USB-C cable (not included) to charge your device.
- Connect a USB-C cable to the power adapter, extend the electrical prongs (if necessary), and plug the power

adapter firmly into a power outlet.

• Ensure the power outlet is easily accessible for disconnecting. Connect the other end of the cable to your device.

### Safety information

- WARNING: Failure to follow these safety instructions could result in fire, electric shock, or other injury or damage.
- The power adapter may become very warm during normal use. The power adapter complies with the useraccessible surface temperature limits defined by the applicable international and regional regulations and safety standards.
- However, even within these limits, sustained contact with warm surfaces for long periods may cause discomfort or injury. To reduce the possibility of overheating or heat-related injuries:
- Always allow adequate ventilation around the adapter and use care when handling it.
- Do not place the power adapter under a blanket, pillow, or your body when the adapter is connected to a power source.
- Use common sense to avoid situations where your skin is in prolonged contact with the power adapter when it's plugged into a power source. For example, don't sleep with a power adapter plugged into a power source.
- Take special care if you have a physical condition that affects your ability to detect heat against the body.
- Don't use the power adapter in wet locations, such as near a sink, bathtub, or shower stall, and don't connect or disconnect the power adapter with wet hands.

#### Unplug the USB-C power adapter if any of the following conditions exist:

- The USB-C cable or power cord has become frayed or damaged.
- The plug part of the adapter, the prongs, or the adapter case has become damaged.
- The adapter is exposed to rain, liquid, or excessive moisture.
- You suspect the adapter needs service or repair.
- · You want to clean the adapter.

## **Specifications**

Input: 100-240VAC /2.0A

• (USB PD) Output: 5.2VDC/3A or 9VDC/3A or 15VDC/5A or 20.5VDC/5A or 28VDC/5A

#### **Frequently Asked Questions**

- Q: What is the power output of the USB-C 140W Power Adapter?
  - A: The power output of the adapter is 140W.
- Q: What type of cable is required to use the USB-C 140W Power Adapter?
  - A: You need a USB-C cable (not included) to connect the adapter to your device.
