## Use your Beats product after service

Learn how to use your Beats product after service.

Record the serial number of your replacement Beats product. Note that your serial number does not change when you replace only Powerbeats Pro earbuds. Your serviced part or product is covered by a 90-day service warranty, or the remainder of your original product warranty or AppleCare plan, whichever is longer. Consumer law will also apply to your serviced or replaced product where available.

Click the link to your product model below to learn how to use your serviced or replaced Beats product.
