Apps AZ ELD App

ELD Manual for Drivers

ELD solution supports all applicable FMCSA HOS and ELD regulations to help truckers achieve compliance. The driver-friendly logbook app automatizes most tasks and allows easy log management.

Manage and Sign Logs

- Review your logs for the current shift by tapping on "Today's log". Check your current status on the Status Circle.
- Edit a status by tapping on the pencil tool.
- Tap the plus sign to add a duty status.
- Tap on past statuses to view annotations and logged locations.
- At the end of your shift, tap "Certify" and sign your RODS for the day.

Keep Your Vehicle in Shape with DVIRs

- Create electronic driver vehicle inspection reports before or after your shift by tapping the plus sign.
- A list of components will be displayed; select any components identified as defective.
- Notify a manager or mechanic about defects that require corrective actions.
- To view or edit past DVIRs, tap on "…".
