Gett App

Welcome to Gett!

You can use the same Gett app to book and manage both your business and private rides. These steps will show you how.

1. Downloading the Gett app

As a rider, your Gett experience is managed through a convenient mobile app.

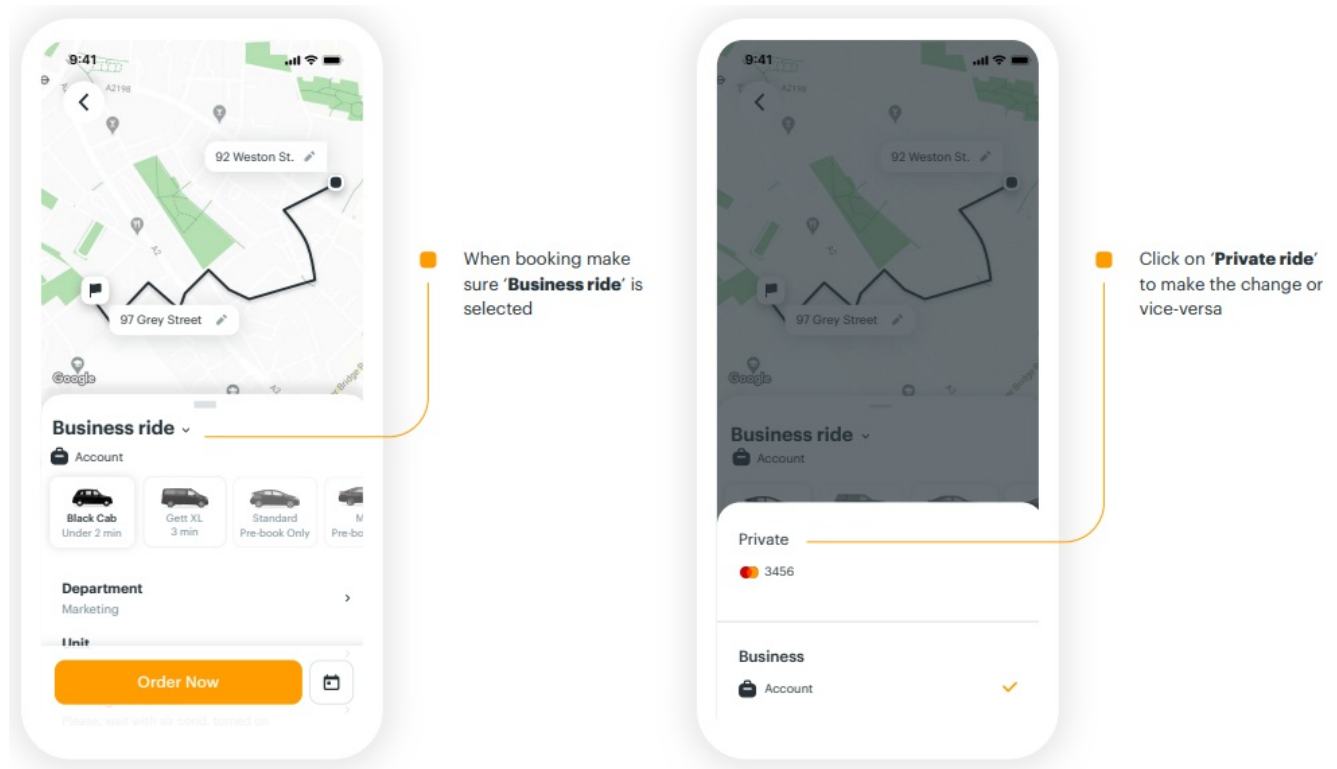

To get started, search for 'Gett' in your App Store, download the app, and login to your corporate account.

2. Switching between private and business rides

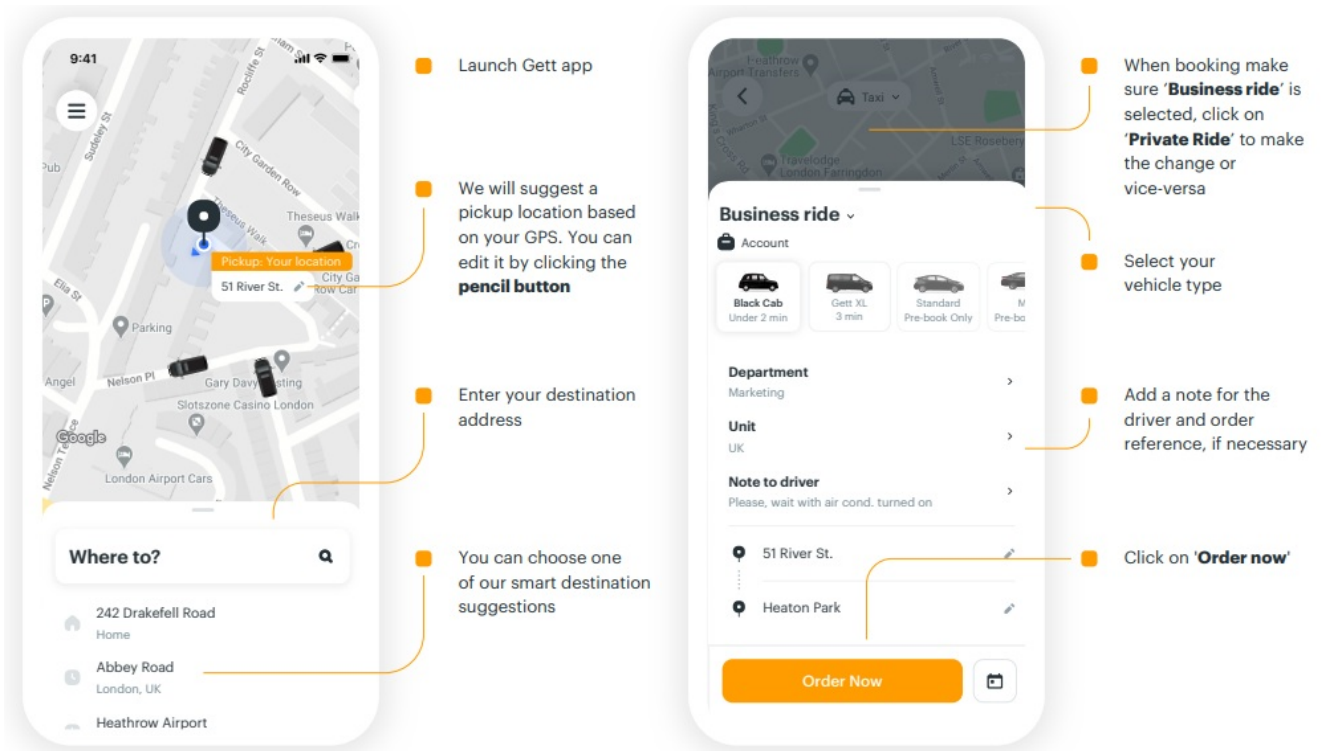

You can use your Gett app for both business and private rides.

Simply toggle between accounts when you book each ride.

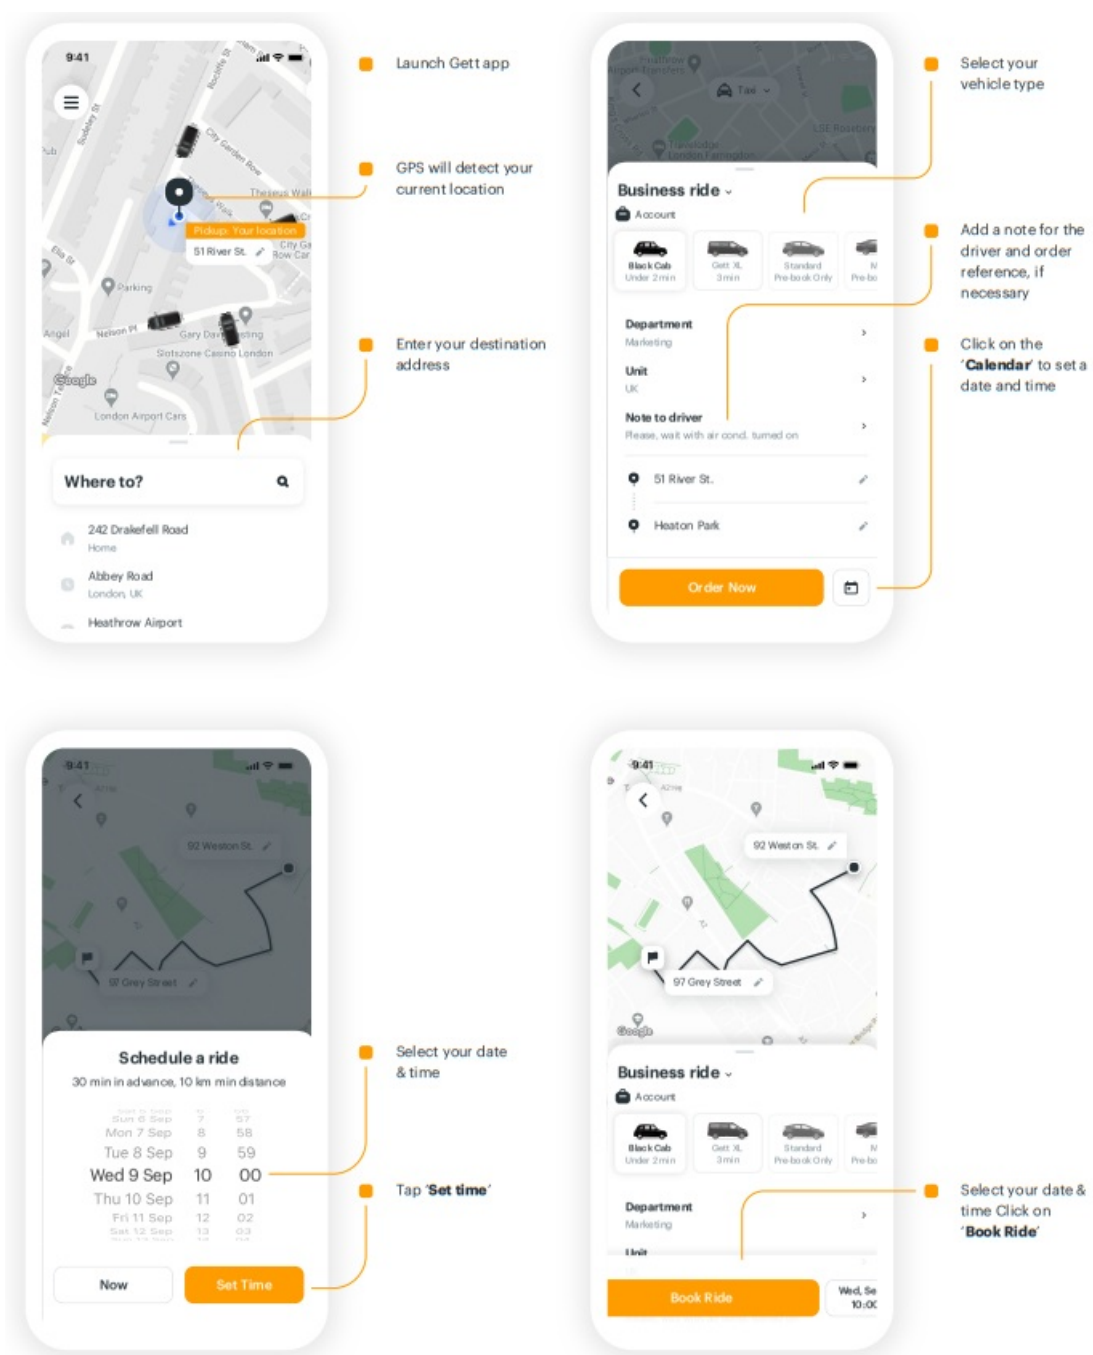

3. You can book a ride right now

You can use Gett for all your favourite rides, on-demand. You can book a vehicle for immediate pickup and travel with confidence wherever — and whenever — you go.

4. You can pre-book a ride for later

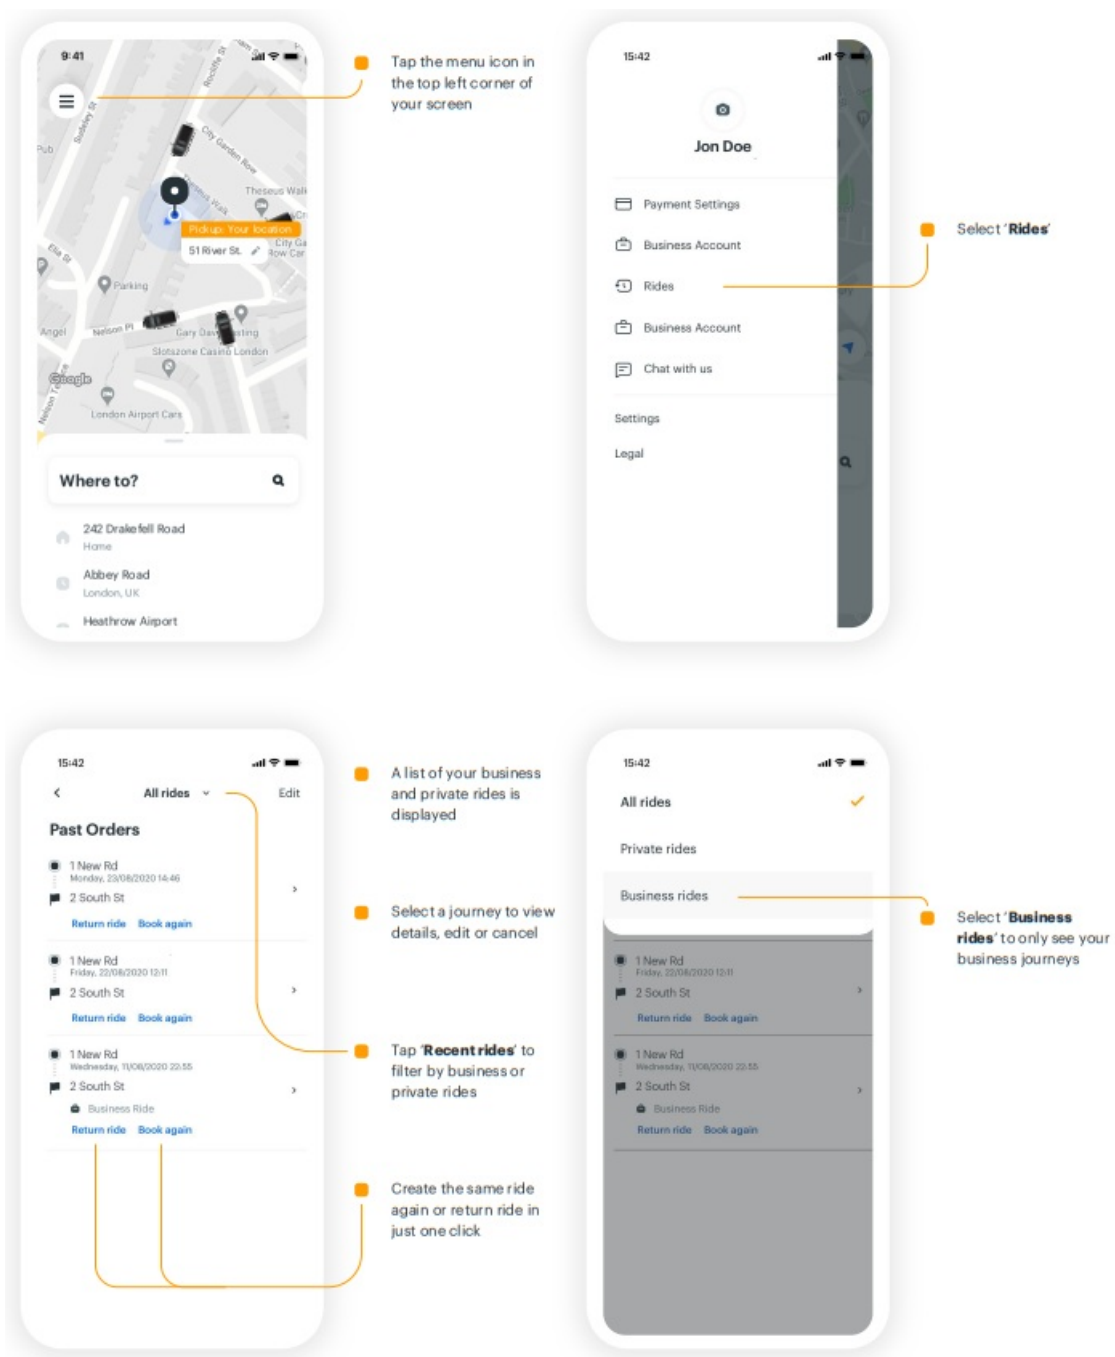

To order a ride for another time, simply choose your favourite vehicle, with options for long-distance journeys and airport pickups.

5. Accessing your ride history

It's easy to see all your ride details in one place through the app.

You can also filter the results to show only business or private rides.

Getting Help

 For help with your app or booking/managing a current ride contact Customer Support through the in-app chat – we're live and available 24/7.

 To learn more about our app, please check out our Knowledge Base.

 For anything else, please speak to your company Admin or our dedicated Success Manager at Gett via email at: onboarding.uk@gett.com

Enjoy your ride!
