Product Introduction

Acara Cube is a smart wireless controller that recognizes multiple actions. Configure the Cube via the app, and you can use it to control various smart accessories through linkage control.

* A hub is required.

* This product is for indoor use only.

Quick Setup

1. Please add the Hub to the app according to the Hub Quick Start Guide.
2. Please open the app, tap “Home” and then tap “+” in the top right corner to enter “Add Device (Accessory)”
Select “Cube”, and add it according to instructions.

*If the connection fails, please move the accessory closer to the Hub and try again.

Effective Range Test: Single swing the Cube or single press the reset button in the Cube. If the Hub makes voice prompts, it indicates that the Cube can communicate effectively with the Hub.

* Avoid metal surfaces to maximize signal strength.

Specifications

Model: MFKZQ01 LM

Dimensions: 45 x 45 x 45 mm (1.77 x 1.77 x 1.77 in.)

Wireless Protocol: Zigbee

Battery: CR2450
Operating Temperature: -10° — +50° C
