Specifications

- Model: CM11B
- Rated Input: 5V::: 0.5A
- Battery Capacity: 800 mAh
- Battery Voltage: 3.7V
- Dimensions: 3.46 x 3.46 x 2.60 inches / 8.8 x 8.8 x 6.6 cm
- Weight: 10oz / 293g
- Auto Shutdown: 10-minute operation
- Charging Time: 2 – 3 hours
- Charging Type: Type-C
- Waterproof Rating: IPX7
- Noise Level: <45dB

Warranty

- Your Arboleaf Scalp Massager is covered by a one-year warranty from the date of purchase, safeguarding against defects. Proof of purchase is required.\

Troubleshooting

Problem	Possible Cause	Solution
Unable to start	Out of battery	Charge the device
Weak massage intensity	Low battery	Charge the device

Cautions

Please carefully review all instructions before using the scalp massager.

1. This device is not intended to diagnose, treat, cure, or prevent any disease.
2. Do not use the device while you drive.
3. Do not use the device while it is charging.
4. Do not use the massager on areas with surgery, skin damage, wounds, bruises, or any other skin issues.
5. Do not use the device if you tend to bleed, suffer from heart and vascular diseases, or any severe medical conditions.
6. Consult with your physician if you are pregnant, have osteoporosis, physical limitations, mental health issues, or other underlying medical conditions prior to using the massager.
7. The device is not suitable for children under 6 years old. Children aged 6 to 12 should use it under the supervision of their parents or guardians.
8. Discontinue use of the massager if you experience any discomfort.
9. Use the provided USB-C cable to charge the device.
10. Always ensure the power is turned off and the charging cable is unplugged before

cleaning the massager.

- Quick Start Guide

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

- The device has been evaluated to meet general RF exposure requirements.
- The device can be used in portable exposure conditions without restriction.

The symbol of the crossed-out garbage can on batteries or accumulators indicates that they must not be disposed of in household waste at the end of their life. You are legally obliged to return old batteries and accumulators after use. You can do this free of charge at a collection point in your area. Addresses of suitable collection points can be obtained from your city or local government. Intended to avoid negative effects on the environment and human health.
