FAQ

How do I connect the device to Wi-Fi?

To connect the device to Wi-Fi, follow these steps:

1. Access the settings menu on the device.
2. Locate the Wi-Fi settings and select your network from the available options.
3. Enter the password for your Wi-Fi network if required.

How do I reset the device?

- To reset the device, locate the reset button on the device and press it for a few seconds until the device restarts.

Power the Dash Cam
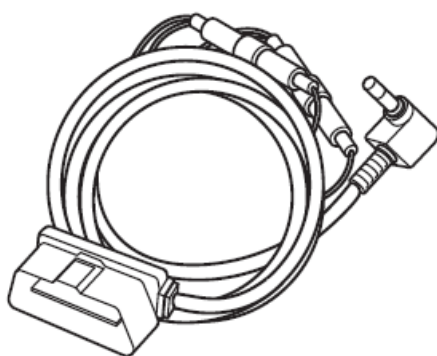

Use one of the following options

The included cable options vary depending on the dash cam model purchased.

12V Power Cable

Hardwiring Cable*

OBD-II Cable*

- To enable Parking Surveillance mode, the dash cam needs to be powered by either the OBD-II Cable or Hardwiring Cable (professional installation recommended).

Download the App

Download the THINKWARE DASHCAM LINK App

On your smartphone, open the Google Play Store or Apple App Store and download and install THINKWARE DASH CAM LINK.

THINKWARE DASH CAM LINK

Apple Store (iOS)

Google Play Store (Android)

Connect to the App

**Follow the on-screen instructions**

1. Press the Wi-Fi ![icon] icon on the dash cam you want to connect.

2. Scan the QR code and connect according to the app instructions.

3. If a connection using the QR code is not available, connect it manually using Wi-Fi Connection.
