ARMYTEK Crystal Pro Compact Multi Flashlight

Product Information

The Crystal Pro Compact Multi Flashlight is a versatile flashlight manufactured by Armytek. It is designed to provide bright illumination in various situations. The flashlight features multiple modes and a rechargeable battery.

Product Usage Instructions

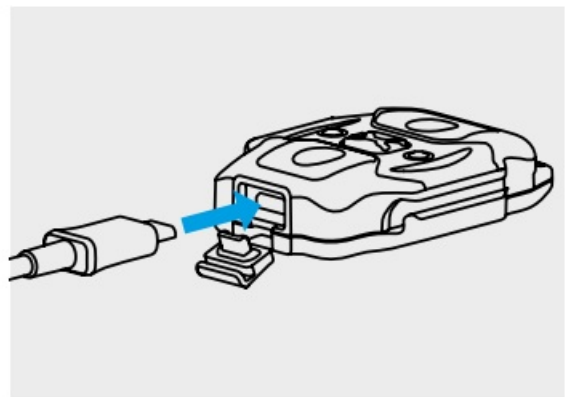

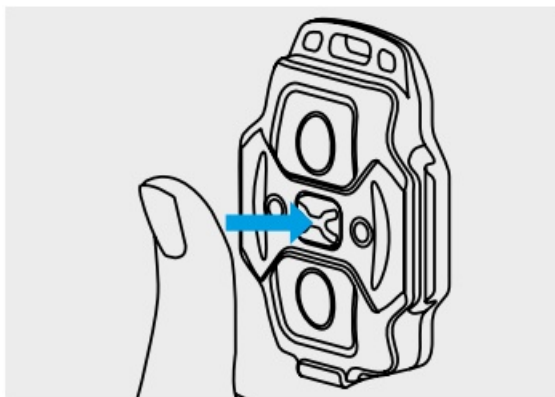

Thank you for choosing the Crystal Pro Compact Multi Flashlight. Please read the following instructions carefully before using the flashlight.

Operation

- **In OFF state: 1 click:** To turn on the last used mode.
- **In ON state: 1 click:** To turn off the flashlight.
- **Press and hold:** To start cycling through the modes of the chosen color from any mode: Firefly – Main1 – Main2 – Main3 – Beacon1 – Beacon2. Release to select.

Thank you for choosing the products of Armytek. Please read this manual carefully before using the flashlight.

OPERATION

In OFF state:

- **1 click:** To turn on the last used mode.

In ON state:

- **1 click:** To turn off the flashlight.
- **Press and hold:** To start cycling through the modes of the chosen color from any mode: Firefly – Main1 – Main2 – Main3 – Beacon1 – Beacon2. Release to select.

The same in OFF & ON states:

- **2 clicks:** To switch between white and red light.
- **3 clicks:** To turn on/off accelerometer.

Accelerometer is ON. The flashlight blinks 3 times with white and red LEDs, confirming that the accelerometer

is on, after which red light Firefly mode is activated.

When the accelerometer is ON: The flashlight turns off in all modes of white and red light if it has been inactive for more than 3 minutes. Changing the position, causing vibration or pressing the button activates the last used mode.

In all red light modes there is brake light function.

- **Brake light function:** When braking, the accelerometer detects bicycle deceleration, after which the flashlight increases its brightness and for 2 seconds additional red LEDs are turned on.

Braking sensitivity increases when the flashlight is installed vertically.

- **Accelerometer is OFF:** The flashlight blinks once with white and red LEDs, confirming that the accelerometer is off, after which white light Firefly mode is activated.
- **Lock function:** To lock/unlock the flashlight, press and hold the button for 4 seconds when the flashlight is off. The white LED will blink once, confirming the action.
- **To reset to factory settings**, press and hold the button for at least 15 sec.

CHARGING

- Insert Micro USB cable into the socket and connect it to the USB-A output of any power source (e.g. wall adapter, Powerbank or computer). Approximate charging time for a fully discharged battery is 2 h 50 min.
- Indication of the charging process: Red — charging is in progress. Green — charging is finished.
- It is forbidden to charge the flashlight when the ambient temperature is below 0 °C.

WARRANTY AND SERVICE

Armytek provides free warranty repairs for 5 years (excluding built-in batteries, mounts, holders, chargers, switches and connectors, which have 12 months warranty) from the date of acquisition if there is a document confirming the purchase. The warranty does not extend to damage during:

1. Improper usage.
2. Attempts to modify or repair the flashlight by nonqualified specialists.
3. Application in chlorinated, contaminated liquids or sea water.
4. Immersion into liquids in case of broken leakproofness.
5. Exposure to high temperatures and chemicals, including the liquids from defected batteries.
