Q & A (1)

1.Q: Why I can't turn on the new gamepad?

A: Please recharge the gamepad before you use it at the first time or use it again after a long period.

2.Q: I can't reconnect my phone with gamepad again even the Bluetooth shows has connected.

A: 1. Remove or delete the Bluetooth connection on your phone and reconnect it again. 2. If Tips 1 can not solve the problem, please reset the con-troller. The reset hole is on the left side of the charging port. When controller is on, press reset button, the indicator light will off. After reset, you can reconnect the controller.

3.Q: How to reset default setting for the gamepad?

A: There is a 'Reset' hole on the left side of the charging port. When gamepad is turned on, press the reset button, the indicator light will turn off after resetting.

4.Q: How do | konw the gamepad's power state?

A: When the power is low, the indicator light flashes quickly; When charging, the indicator light flashes slowly; When fully charged, the indicator light will be off.

5.Q: Why controller doesn't work after connection?

A: Please remove and delete Bluetooth connection then recon- nect it again, or reset the controller.

6.Q: Left or right rocker stuck or drifting problems.

A: Physical solution: Press left or right rocker and turn the rocker 3-5 rounds to reset axis of rocker.

7.Q: Can't power on the controller after charging overnight.

A: 1 While charging, the charging LED light stays on, but still can not power on the controller. Then you need to press the reset key to reboot the controller. 2 While charging, there is on any LED light on the controller. That means the charging cable is broken. Please use a new charging cable. There will be a LED light stays on while the charging cable works.

8.Q: Why does the key not work as normal?

A: 1 Reset the controller. 2 After reset, if it still doesn't work, please download 'game controller' from App Store/Google Play. Open 'game controller', then press each key on gamepad to check if it is work. If the buttons are normal, there will be a mapping response on the 'game controller' App. 3If the gamepad is defective, please contact us for replace- ment or refund. game controller App:
