# Exam Ref MS-100 Microsoft 365 Identity and Services User Manual

Published by **Microsoft Press**

## INTRODUCTION AND PURPOSE

---

This manual provides an overview and guide for using the *Exam Ref MS-100 Microsoft 365 Identity and Services* book. This publication is designed to assist experienced IT professionals in preparing for Microsoft Exam MS-100. It focuses on developing critical thinking and decision-making skills essential for achieving Microsoft Certified Expert level certification in Microsoft 365 services.

The book aims to help demonstrate real-world mastery of skills and knowledge required to effectively design, deploy, manage, and secure Microsoft 365 services.

## KEY OBJECTIVES AND CONTENT STRUCTURE

---

The content of the book is organized by specific exam objectives to facilitate focused study. It includes strategic, "what-if" scenarios to challenge understanding and application of concepts.

### Exam Objectives Covered:

- Design and implement Microsoft 365 services
- Manage user identity and roles
- Manage access and authentication
- Plan Office 365 workloads and applications

It is assumed that users of this book possess working knowledge of Microsoft 365 workloads, networking, server administration, and IT fundamentals, and have administered at least one Microsoft 365 workload.

## EXAM MS-100 OVERVIEW

---

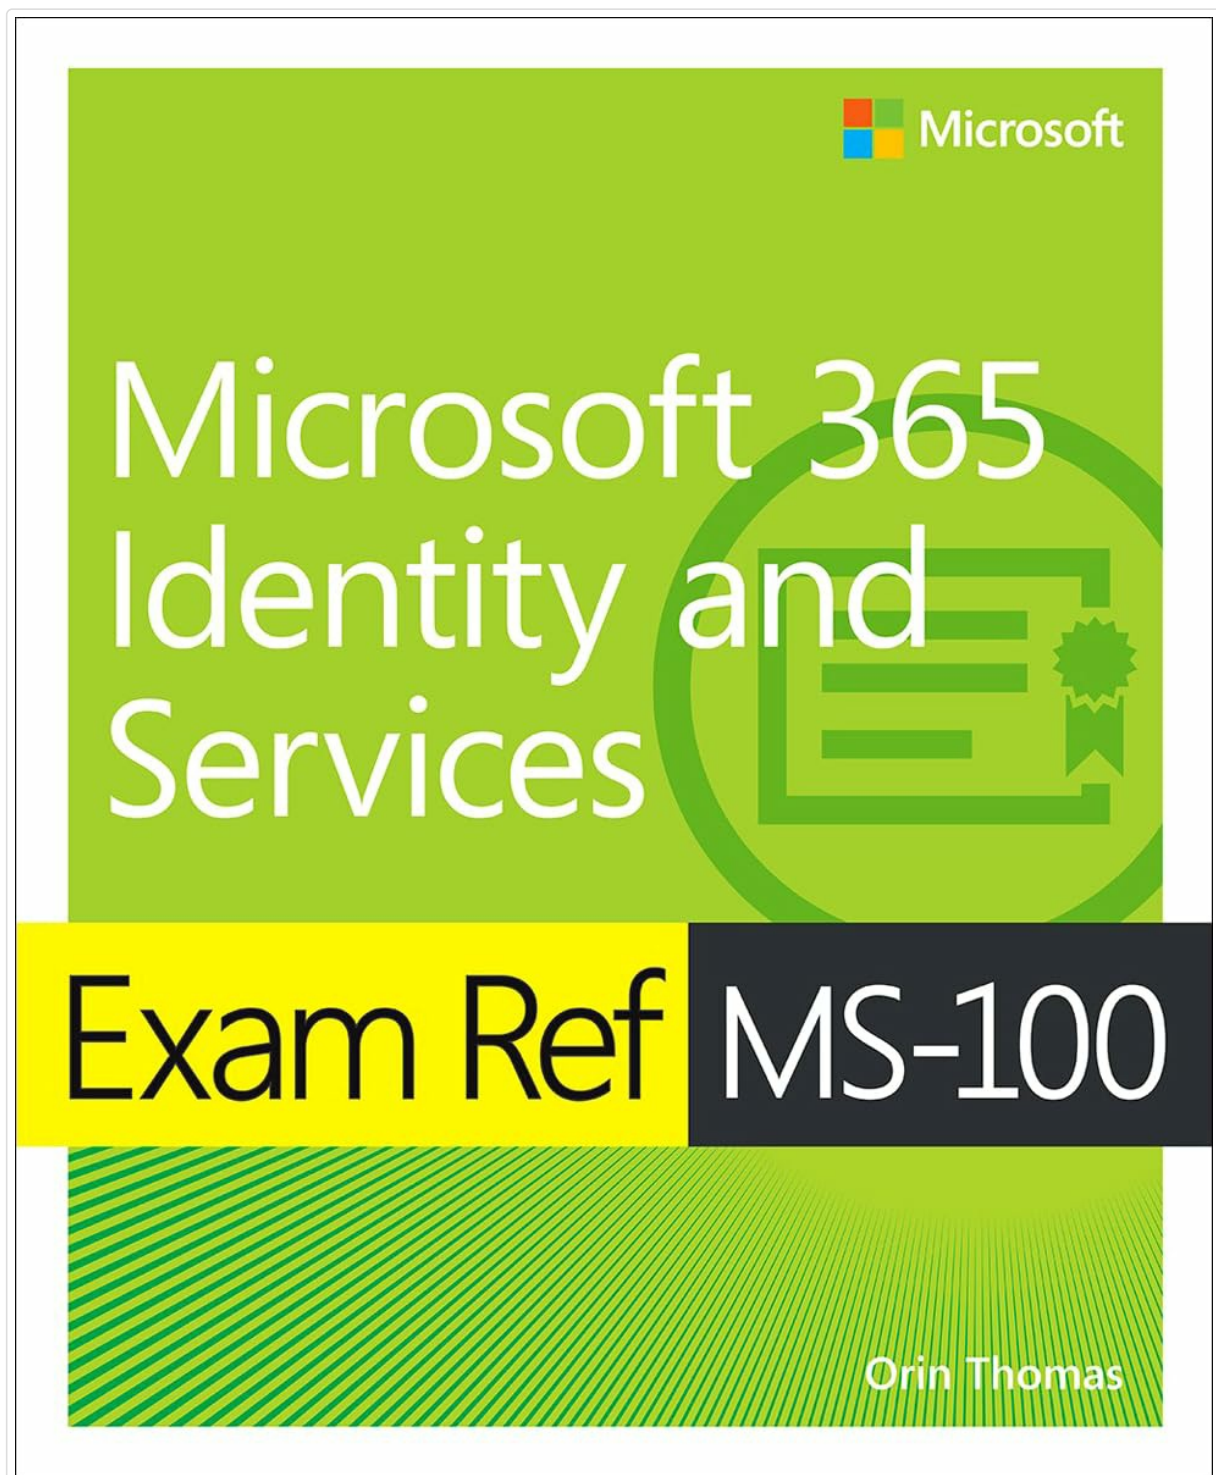

Exam MS-100 assesses knowledge related to various aspects of Microsoft 365 administration, including:

- Managing domains
- Planning Microsoft 365 implementation
- Setting up and managing Microsoft 365 tenancy and subscriptions
- Planning user and data migration

- Designing identity strategy
- Planning and managing identity synchronization with Azure AD Connect
- Managing Azure AD identities and user roles
- Managing authentication and implementing MFA
- Configuring application access
- Implementing access for external users of Microsoft 365 workloads
- Planning Office 365 workload and applications deployment

Passing Exam MS-100, along with Exam MS-101 Microsoft 365 Mobility and Security, and earning one Microsoft 365 workload administrator certification or the MCSE Productivity certification, fulfills the requirements for the Microsoft 365 Certified Enterprise Administrator Expert certification credential.

## PRODUCT IMAGE

The cover features the title 'Microsoft 365 Identity and Services' prominently, with 'Exam Ref MS-100' highlighted in yellow and dark grey sections. The Microsoft logo is visible at the top right. The background is primarily green with a subtle pattern at the bottom.

## SPECIFICATIONS

<b>Edition</b>	1st
<b>Language</b>	English
<b>Print Length</b>	272 pages
<b>ISBN-10</b>	0135565731
<b>ISBN-13</b>	978-0135565735
<b>Item Weight</b>	1 pounds
<b>Dimensions</b>	9 x 6 x 1.25 inches
<b>Part of Series</b>	Exam Ref

## TROUBLESHOOTING AND STUDY TIPS

While the book provides a structured approach to the exam objectives, comprehensive preparation often benefits from additional resources. If you encounter challenges or feel the need for deeper understanding, consider the following:

- **Supplement with Practice Exams:** Utilize official Microsoft practice exams or reputable third-party practice tests to gauge your readiness and identify areas requiring further study.
- **Consult Official Documentation:** Refer to Microsoft Learn and other official Microsoft documentation for in-depth information on specific topics and the latest updates to Microsoft 365 services.
- **Hands-on Experience:** Practical experience with Microsoft 365 workloads, networking, and server administration is crucial for success. Apply theoretical knowledge in a lab environment.
- **Community Forums:** Engage with IT professional communities and forums for discussions, tips, and clarification on complex topics.

## AUTHOR INFORMATION

The author of *Exam Ref MS-100 Microsoft 365 Identity and Services* is **Orin Thomas**. He is a Principal Cloud Operations Advocate at Microsoft and has authored numerous books for Microsoft Press on various IT topics, including Windows Server, Azure, Office 365, and security. He has also developed official Microsoft curriculum and courses.
