CARE AND STORAGE

To ensure the longevity of your origami creations and kit components, follow these guidelines:

- **Storage:** Store unused origami paper and accessories in a dry, cool place away from direct sunlight. This prevents fading of colors and damage to materials.
- **Handling:** Handle finished origami models with care to avoid accidental creasing, tearing, or bending.
- **Cleaning:** Do not use water or chemical cleaners on paper models. If dusting is required, use a soft,

dry brush or cloth very gently.

TROUBLESHOOTING TIPS

If you encounter any challenges while working with your kit, consider the following common issues and solutions:

- **Diagrams Seem Unclear:** Revisit the "Basic Folding Tips" section at the beginning of the book. It explains all common symbols and folding techniques in detail.
- **Folds Are Not Aligning Precisely:** Ensure you are working on a flat, stable surface. Take your time to align edges and corners perfectly before making a sharp crease. Precision is key in origami.
- **Paper Tearing During Folds:** Apply gentle, even pressure when creasing. If a fold feels too tight or resistant, re-check the previous steps to ensure correct execution.
- **Finished Model Doesn't Hold Its Shape:** Ensure all creases are firm and sharp. For some models, especially those with many layers, pressing firmly along the folds can help. If desired, a tiny dot of craft glue (not included) can be used to secure hidden flaps.
