4. OPERATING INSTRUCTIONS (GAMEPLAY)

The My Hero Academia Collectible Card Game is a competitive head-to-head game where players duel to determine the victor. The core gameplay involves strategic deck management and combat.

4.1 Game Objective

The primary objective is to defeat your opponent by reducing their health to zero or by fulfilling specific win conditions outlined in the game's rules.

4.2 Basic Gameplay Flow

1. **Starting the Game:** Each player shuffles their 51-card deck and draws an initial hand.
2. **Turns:** Players take turns performing actions. A typical turn involves drawing cards, playing foundation cards, and initiating attacks.
3. **Attacks and Combos:** Use attack cards to build combos against your opponent. The more cards you play in a combo, the harder it is to perform. Playing foundation cards before attacking can improve your chances of success. Successful hits may grant momentum, allowing you to execute powerful special abilities.
4. **Defense:** Opponents can defend against attacks using their own cards and abilities.
5. **Quirks:** Each character has a unique "Quirk" ability that influences gameplay and deck-building strategies.

4.3 Strategic Elements

- **Deck Adaptation:** Adapt your strategy as the game progresses based on your hand, your opponent's actions, and the cards in play.
- **Resource Management:** Manage your resources (e.g., hand size, momentum) effectively to maximize your offensive and defensive capabilities.
- **Push Your Luck Combat:** The game incorporates a "push your luck" combat system, requiring careful planning and risk assessment.

Use attack cards to build combos against your opponent but keep in mind that the more cards you play, the harder the combo will be to perform. Play foundation cards before attacking to improve your chances of success. Successful hits will grant you momentum and allow you to execute powerful special abilities.

My Hero Academia Collectible Card Game is an intense competitive game that seamlessly integrates push your luck combat with luck mitigation planning and classic deck crafting

5. MAINTENANCE

Proper care of your collectible cards will ensure their longevity and maintain their condition for gameplay and collection.

- **Storage:** Store cards in a cool, dry place away from direct sunlight and extreme temperatures. Use card sleeves and deck boxes to protect them from dust, moisture, and physical damage.
- **Handling:** Handle cards by their edges to avoid transferring oils and dirt from your hands to the card surface. Wash hands before playing or handling cards.
- **Cleaning:** For minor smudges, gently wipe cards with a soft, dry, lint-free cloth. Avoid using liquids or abrasive materials.

6. TROUBLESHOOTING

If you encounter issues while playing or with your product, consider the following:

- **Missing Cards:** If a booster pack appears to have fewer than 10 cards or is missing a guaranteed rarity, contact Jasco Games customer support.
- **Rule Clarification:** For questions regarding specific card interactions or game rules, consult the official My Hero Academia Collectible Card Game rulebook or visit the official Jasco Games website for FAQs and errata.
