Lowrance LCX Series Marine Quick Reference Guide

Comprehensive Checklist for Lowrance LCX-27c, LCX-28c HD, LCX-37c, LCX-38c HD, LCX-112c, LCX-113c HD
GPS Units

PRODUCT OVERVIEW

This Qref Quick Reference Checklist is designed to help users master their Lowrance LCX Series GPS units. It provides clear, illustrated overviews and step-by-step procedures to maximize the utility of your marine GPS device. The guide is presented in a durable, spiral-bound format, making it an ideal companion for on-the-go reference.

The image displays the front cover of the Lowrance LCX Series Qref Checklist. The cover is dark blue with white text, featuring the 'Qref' logo at the top. Below the title 'LOWRANCE LCX SERIES MARINE QUICK REFERENCE', there is an image of a Lowrance GPS unit with a split screen showing a map and SONAR readings. The right side of the book has labeled tabs for 'START FIND GO', 'ROUTES', 'MOVING MAPS', 'PAGES', and 'TIPS & TRICKS'. The bottom left highlights 'GPS Success Button-by-Button™' and lists topics covered like 'DIRECT', 'NEAREST', 'ROUTES', 'MOVING MAPS', 'SONAR', 'RADAR', and 'TIDES'. It also lists covered models: LCX-27C, LCX-28C HD, LCX-37C, LCX-38C HD, LCX-112C, LCX-113C HD. The price '\$24.95 US' is visible at the bottom right.

The checklist is engineered for maximum readability and clarity, with large type and a thoughtful design that guides users

through each screen, menu, and step of their Lowrance GPS unit. Its tabbed sections allow for quick navigation to specific procedures.

MODELS COVERED

This quick reference guide specifically covers the following Lowrance LCX Series models:

- Lowrance LCX-27c
- Lowrance LCX-28c HD
- Lowrance LCX-37c
- Lowrance LCX-38c HD
- Lowrance LCX-112c
- Lowrance LCX-113c HD

Note: Other Lowrance models may be covered by separate Qref publications.

USING YOUR QREF CHECKLIST

The Qref checklist is designed for immediate and practical use. Follow these general guidelines to get the most out of your quick reference guide:

1. **Familiarization:** Begin by reviewing the "Unit Overview" section to understand the general layout and key features of your Lowrance LCX unit as presented in the guide.
2. **Navigation:** Utilize the sturdy 1/4" (60mm) side tabs to quickly locate specific topics or procedures. The guide's organization into standardized sections facilitates rapid access to information.
3. **Step-by-Step Procedures:** For detailed operations, follow the "Button-by-Button" instructions. These procedures are designed to guide you through each screen and menu option on your GPS unit.
4. **"You Are Here" Feature:** Refer to the unique "You Are Here" section if you find yourself lost within your GPS unit's menu system. This feature intelligently displays all possible screens and provides navigation paths.

OPERATING INSTRUCTIONS

This guide provides detailed instructions for various operational aspects of your Lowrance LCX Series GPS unit. Key topics covered include:

- **Direct Navigation:** Procedures for setting a direct course to a specific waypoint.
- **Nearest Function:** How to find the nearest points of interest, such as marinas, fuel, or hazards.
- **Routes Management:** Creating, saving, and navigating pre-planned routes.
- **Moving Maps:** Understanding and utilizing the real-time map display for navigation.
- **SONAR Operation:** Interpreting SONAR readings for depth, fish finding, and bottom composition.
- **RADAR Integration:** (If applicable to your model) Basic operation and interpretation of RADAR displays.
- **Tides Information:** Accessing and understanding tidal data for safe navigation.

Each topic is presented with clear, illustrated instructions to ensure ease of understanding and application.

CARE AND DURABILITY

The Qref checklist is built for longevity and resilience in marine environments. To maintain its condition:

- The guide features an *indestructible industrial-grade matte laminate* that protects the full-color pages. This laminate also helps reduce glare and improves readability in various lighting conditions.
- The spiral binding is designed to be robust, preventing crushing and ensuring pages do not slip out, unlike traditional metal bindings.
- While durable, avoid prolonged exposure to direct sunlight or extreme temperatures to preserve the print quality and material integrity over time.
- Clean the laminated pages with a soft, damp cloth if necessary. Avoid abrasive cleaners.

TROUBLESHOOTING AND TIPS

This quick reference guide is designed to assist in resolving common operational queries and maximizing your GPS unit's potential. While it does not cover device repair, it provides solutions for navigation and feature usage challenges.

- If you encounter difficulty navigating the GPS unit's menus, consult the "You Are Here" section for visual guidance on screen transitions.
- For specific function issues (e.g., SONAR not displaying data), refer to the relevant operational section for correct setup and interpretation steps.
- The "Tips & Tricks" section (indicated by a tab on the physical guide) offers shortcuts and advanced features to enhance your user experience.

For issues beyond the scope of this quick reference, refer to the official Lowrance user manual for your specific model or contact Lowrance customer support.

SPECIFICATIONS

Attribute	Detail
Product Type	Marine Quick Reference Checklist / User Guide
Binding	Spiral-bound (top)
Dimensions (W x H)	4.5" (114mm) x 8" (203mm)
Print Length	31 pages
Lamination	Industrial-grade matte laminate
Publisher	Qref Quick Reference Media
Publication Date	January 1, 2008
ISBN-10	1607860155
ISBN-13	978-1607860150
Item Weight	8 ounces

WARRANTY INFORMATION

This Qref Quick Reference Checklist is a third-party publication designed to assist users of Lowrance products. It does not come with a separate warranty from Qref Quick Reference Media beyond standard consumer rights for printed materials. For warranty information regarding your Lowrance LCX Series GPS unit, please refer to the official documentation

provided by Lowrance or visit the official Lowrance website.

CUSTOMER SUPPORT

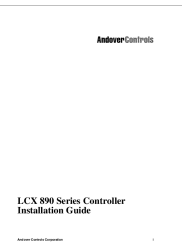

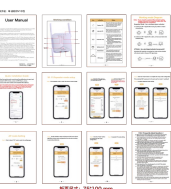

For support related to the content or usage of this Qref Quick Reference Checklist, please refer to the publisher's contact information if available within the guide itself. For technical support, service, or warranty claims concerning your Lowrance LCX Series GPS unit, please contact Lowrance directly:

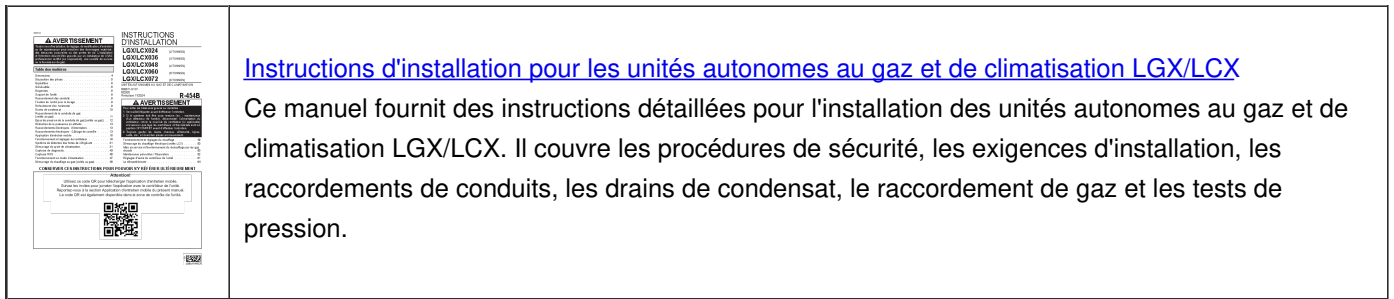

Lowrance Official Website: www.lowrance.com (Please check for the most current contact information and support resources.)

Lowrance Customer Service: Refer to the Lowrance website for phone numbers and support hours specific to your region.

FM-11 In-Dash Adapter Kit Installation Instructions

This adapter kit is designed for in-dash mounting the following products: Lowrance® LCX-37C, LCX-38C HD, GlobalMap® 8200C, GlobalMap® 8300C HD.

The instructions **MUST** be used with template part number 988-0154-691, which accompanies this instruction sheet. Please read all instructions before proceeding. **NOTE:** Recommended tools for this job include: jig saw, drill, 1/32" (44.45 mm) hole saw, 1/8" (3.18 mm) drill bit, Phillips head screwdriver and adjustable wrench.

1. Select the desired mounting location. Make sure there is enough room behind the dash to attach the power, network, antenna and/or transducer cables. The case with cables attached is approximately 4.50" (114.3 mm) deep behind the mounting surface. **The maximum dash thickness that can be used with this mounting kit is 1" (25.4 mm).** Carefully measure the dash thickness before cutting any holes.

2. Tape the template supplied with these instructions to the dash. Begin the cutout by drilling four 1/32" (44.45 mm) holes inside the cutout to accommodate the saw blade. Use the 1/8" (3.18 mm) drill bit to drill the four mounting screw holes where indicated on the template.

3. Slip your saw blade into one of the 1/32" (44.45 mm) starter holes and then saw along the indicated cutout line. Be careful when working around the corners, because there is little room for error.

4. If the installation location is exposed to weather, you may want to seal the cutout. If that's the case, before you place the unit into the opening, apply a bead of RTV silicone or other suitable sealant to the back of the unit. In addition to the outside edge, be sure to apply sealant around the four mounting screw holes, as shown in the following figure.

5. For each of the four screws provided, thread a lock nut and flat washer onto the dash to create a total of four screw assemblies as shown in the second image.

6. Place the unit into the dash cutout. (If space is cramped it's usually easier to connect the cables before placing the unit in the dash.)

		GPS CHARTPLOTTER COMPATIBILITY GUIDE			
		EMMA (EMM) PACE 1.0		PaceLife™	
Starting from 2011, our products have received a 128-bit advanced encryption chip, which makes our own GPS chipsets more secure and compatible. Some GPS manufacturers have not updated their 128-bit encryption with our own chip, resulting in our GPS being incompatible with their software. Conflicting power control, frequency interference and other factors may also cause incompatibility.

UNIVERSAL SONAR 2	
A Universal Sonar 2 adapter plug will allow you to quickly and conveniently connect and disconnect your motor from your fish finder. Shielded cable connections virtually eliminate the possibility of motor interference and are engineered for extra dependability. Universal Sonar 2's state-of-the-art, integrated and protected transducer is built into the lower end of the motor and all wiring runs inside the indestructible composite shaft - out of sight and out of harm's way. No clamps. No ties. No exposed wires or connections. You get optimal motor performance to help you find fish.	
Required accessory adapter for Universal Sonar 2 equipped trolling motors:
