4. SETUP AND FIRST USE

The Armaf Club De Nuit Intense Eau De Parfum Spray comes ready for immediate use. No assembly or complex setup is required.

4.1 Unboxing and Inspection

1. Carefully remove the perfume bottle from its packaging.
2. Inspect the bottle for any signs of damage or leakage. If any damage is observed, contact customer support immediately.
3. Ensure the cap is securely fastened before storage or first use.

5. OPERATING INSTRUCTIONS

To achieve the best and most lasting scent experience, follow these application guidelines:

5.1 Application Directions

- **Pulse Points:** Spray the perfume directly onto pulse points such as the wrists, neck, behind the ears, and inner elbows. These areas generate heat, which helps to diffuse the fragrance throughout the day.
- **Distance:** Hold the bottle approximately 5-7 inches (12-18 cm) away from your skin when spraying to ensure an even mist.
- **Do Not Rub:** After applying, avoid rubbing the sprayed areas, as this can break down the fragrance molecules and alter the scent's longevity and character.
- **Layering (Optional):** For a more intense and lasting effect, consider applying a matching unscented lotion or body cream before spraying the perfume.

6. MAINTENANCE AND STORAGE

Proper care and storage will help preserve the quality and longevity of your fragrance.

- **Storage Conditions:** Store the perfume in a cool, dark place, away from direct sunlight, extreme temperatures, and humidity. A dresser drawer or closet is ideal.
- **Keep Cap Secure:** Always ensure the bottle cap is tightly closed after each use to prevent evaporation and oxidation of the fragrance.
- **Avoid Shaking:** Do not shake the bottle excessively, as this can introduce air and potentially degrade the fragrance over time.
- **Cleaning the Bottle:** If the bottle becomes dusty or smudged, gently wipe it with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

7. TROUBLESHOOTING

This section addresses common concerns users might encounter with the fragrance.

Problem	Possible Cause / Solution
Scent does not last long.	<p>Application Method: Ensure you are applying to pulse points.</p> <p>Skin Hydration: Fragrance lasts longer on moisturized skin. Consider applying an unscented lotion before perfume.</p> <p>Storage: Improper storage (heat, light) can degrade fragrance. Store in a cool, dark place.</p> <p>Olfactory Fatigue: You may become accustomed to the scent and no longer perceive it, while others still can.</p>
Perfume stains clothing.	<p>Direct Application: Avoid spraying directly onto light-colored fabrics, especially silk or delicate materials.</p> <p>Alcohol Content: The alcohol and oil content can sometimes leave marks. Spray on skin before dressing, or from a greater distance onto clothing if desired, but test on an inconspicuous area first.</p>
Scent seems different than expected.	<p>Skin Chemistry: Fragrances can react differently with individual skin chemistries.</p> <p>Batch Variation: Minor variations can occur between production batches.</p> <p>Storage: Improper storage can alter the scent profile over time.</p>
