Maintenance and Care

Proper care of your Audio CD will ensure its longevity and optimal sound quality:

- **Handling:** Always hold the CD by its outer edges or by the center hole. Avoid touching the shiny playing surface to prevent fingerprints and scratches.
- **Cleaning:** If the CD becomes dirty, gently wipe it with a soft, lint-free cloth (e.g., microfiber) in a straight line from the center to the outer edge. Do not wipe in a circular motion. For stubborn dirt, use a specialized CD cleaning solution or a small amount of water with mild soap, then dry thoroughly. Avoid abrasive cleaners or solvents.
- **Storage:** Store the CD in its original jewel case when not in use. Keep it away from direct sunlight, high temperatures, humidity, and dust. Extreme conditions can warp the disc or damage the data layer.
- **Protection:** Do not apply stickers or write on the label side of the CD with ballpoint pens or sharp objects, as this can damage the data layer beneath.

Troubleshooting Common Issues

If you encounter problems while playing your Vybe Audio CD, consider the following solutions:

- **CD Not Playing/Recognized:**
  - Ensure the CD is inserted correctly with the label side up.
  - Check if the CD has visible scratches or dirt. Clean the CD as described in the Maintenance section.
  - Try playing another Audio CD to determine if the issue is with the player or the CD itself.
  - Restart your CD player or computer.
- **Skipping or Stuttering Playback:**
  - Inspect the CD for scratches, smudges, or dust on the playing surface. Clean it carefully.
  - Ensure the CD player is on a stable surface to prevent vibrations.
  - If using a portable player, check for excessive movement during playback.
- **No Sound:**
  - Verify that your audio system's volume is turned up and not muted.
  - Check all cable connections between your CD player and amplifier/speakers.
  - Ensure the correct input source is selected on your amplifier or receiver.

If problems persist after following these steps, consult the manual for your specific CD player or contact the manufacturer of your playback device.
