Marvel Super Heroes Vs. Street Fighter offers several modes of play, each providing a unique experience:

- **Battle Mode:** The standard single-player arcade experience where you fight through a series of opponents to reach the final boss.
- **Versus Mode:** Engage in head-to-head combat against another player. This mode supports two players.
- **Hero Battle Mode:** An endurance challenge where you select a team of characters and face off against a continuous stream of opponents to see which group has the stronger fighters.
- **Crossover Mode:** This mode attempts to replicate the tag-team experience of the arcade version. You select two characters, but only play as one.
