OXO Good Grips Dish Brush Model 21691 User Manual

Your guide to effective and efficient dish cleaning.

1. PRODUCT OVERVIEW

The OXO Good Grips Dish Brush Model 21691 is engineered for efficient and safe cleaning of various kitchenware. It combines durable nylon bristles with a built-in scraper, designed to tackle tough food residues while protecting delicate surfaces like non-stick cookware.

Key Features:

- **Durable Nylon Bristles:** Safely scrub away baked-on food, grease, and tough messes without scratching non-stick cookware.
- **Flared Brush Head:** Angled bristles are designed to reach into corners of pots, pans, jars, and bottles for thorough cleaning.
- **Built-in Scraper:** Effectively lifts stubborn, stuck-on food, reducing the need for prolonged soaking.
- **Non-Slip Handle:** A soft, comfortable grip ensures secure handling, even when wet.
- **Dishwasher Safe:** Allows for convenient cleaning and sanitization of the brush.

2. SETUP

The OXO Good Grips Dish Brush requires minimal setup. Simply remove it from its packaging. No

assembly is required.

3. OPERATING INSTRUCTIONS

To use your OXO Good Grips Dish Brush for optimal cleaning:

1. **Apply Cleaning Agent:** Dispense your preferred dish soap directly onto the nylon bristles of the brush.
2. **Scrub Surfaces:** Use the brush to scrub dishes, pots, pans, and other kitchen items. The flared head allows for access into corners and crevices.

5. **Rinse:** After scrubbing, rinse the cleaned items and the brush thoroughly under running water.

4. MAINTENANCE

Proper maintenance ensures the longevity and hygiene of your dish brush.

- **Cleaning the Brush:** The OXO Good Grips Dish Brush is dishwasher safe. Place it in the dishwasher for a thorough cleaning and sanitization. Alternatively, wash it by hand with warm, soapy water and rinse well.
- **Storage:** After cleaning, allow the brush to air dry completely. It can be stored upright or hung by the hole in its handle for convenient access and drying.

5. TROUBLESHOOTING

If you encounter any issues with your OXO Good Grips Dish Brush, consider the following:

- **Ineffective Scrubbing:** Ensure sufficient dish soap is applied. For very tough stains, allow items to soak briefly before scrubbing, or utilize the built-in scraper.
- **Bristles Losing Shape:** Over time, bristles may wear down or bend. If the brush no longer cleans effectively due to bristle condition, it may be time to replace the brush.
