OXO 32681

OXO Good Grips Apple Slicer, Corer, and Divider Instruction Manual

Model: 32681

INTRODUCTION

Welcome to your new OXO Good Grips Apple Slicer, Corer, and Divider. This tool is designed to simplify the process of preparing apples by simultaneously coring and slicing them into uniform pieces. Its durable stainless steel blades and comfortable non-slip handles ensure efficient and safe operation for everyday use.

SAFETY INSTRUCTIONS

- **Warning: Sharp Blades.** Handle with extreme care.
- Keep out of reach of children.
- Always place the apple on a stable, flat cutting surface before slicing.
- Ensure fingers are clear of the blades when pressing down.

SETUP

The OXO Good Grips Apple Slicer, Corer, and Divider comes pre-assembled and ready for use. Before first use, wash the slicer thoroughly with warm, soapy water or place it in the dishwasher. Rinse and dry completely.

OPERATING INSTRUCTIONS

1. Select a firm apple. For best results, choose an apple that fits within the diameter of the slicer blades (approximately 4.5 inches).
2. Place the apple stem-side up or down on a stable cutting surface, such as a cutting board.
3. Center the stainless steel coring ring over the apple's core.
4. Grip the soft, non-slip handles firmly with both hands.
5. Apply steady, downward pressure to push the slicer through the apple until it reaches the cutting surface. The blades will simultaneously core the apple and divide it into 8 uniform slices.
6. Carefully lift the slicer, removing the cored and sliced apple. The core will remain within the center ring of the slicer.
7. To remove the core, gently push it out from the opposite side of the slicer.

Image: A green apple perfectly sliced into 8 wedges with the core cleanly removed, demonstrating the slicer's effectiveness.

CLEANING AND MAINTENANCE

The OXO Good Grips Apple Slicer, Corer, and Divider is designed for easy cleaning.

- **Hand Washing:** Wash immediately after use with warm, soapy water. Use a brush to clean around the blades carefully. Rinse thoroughly and dry completely to prevent water spots and maintain blade sharpness.
- **Dishwasher Safe:** This product is dishwasher safe. Place it on the top rack for optimal cleaning. Ensure it is positioned securely to prevent damage during the wash cycle.
- **Storage:** Store in a dry place, ideally with the blades protected to maintain sharpness and prevent accidental cuts.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Slicer is difficult to push through the apple.	Apple is too hard or too large for the slicer. Blades may be dull.	Use a softer or smaller apple. Ensure the apple is centered. Consider sharpening the blades if they are dull (refer to specialized sharpening guides for kitchen tools).
Apple slices are uneven or incomplete.	Apple not centered. Uneven pressure applied.	Ensure the coring ring is perfectly centered over the apple. Apply even, firm pressure with both hands.
Core remains stuck in the slicer.	Residue buildup.	Push the core out from the opposite side. Clean the slicer thoroughly after each use to prevent buildup.

SPECIFICATIONS

- **Model Number:** 32681
- **Brand:** OXO
- **Color:** White with Black Accents
- **Blade Material:** Stainless Steel
- **Handle Material:** Soft, Non-Slip Grip
- **Product Dimensions:** Approximately 7 inches (179 mm) wide x 4.3 inches (108 mm) long x 2 inches (52 mm) high
- **Item Weight:** 80 Grams (2.82 ounces)
- **Dishwasher Safe:** Yes
- **UPC:** 719812326818
