Agri-Fab 45-0218

Agri-Fab 45-0218 26-Inch Push Behind Lawn Sweeper Instruction Manual

Model: 45-0218 | Brand: Agri-Fab

INTRODUCTION

This manual provides essential information for the safe and efficient operation, assembly, maintenance, and troubleshooting of your Agri-Fab 45-0218 26-Inch Push Behind Lawn Sweeper. Please read all instructions carefully before use.

SETUP AND ASSEMBLY

Your Agri-Fab 45-0218 lawn sweeper requires assembly prior to first use. Follow the instructions provided in the packaging for detailed steps. For visual guidance, an assembly video is available.

Brush Height Adjustment

The sweeper features an easy-to-use brush height adjustment that requires no tools. To optimize sweeping performance, set the brushes to penetrate the grass to a depth of approximately $\frac{1}{2}$ inch (13mm) from the top of the grass. Setting the brushes too low can hinder proper function.

OPERATING INSTRUCTIONS

The Agri-Fab 45-0218 is designed for smaller residential yards and light clean-up tasks. Its 26-inch sweeping width allows for efficient debris collection.

Preparation for Sweeping

- For optimal performance and to maximize the 6.2 cu. ft. hopper capacity, it is recommended to mow your lawn before sweeping. This mulches leaf debris, making it easier to collect.
- Ensure the brush height is correctly adjusted for your lawn conditions.

Sweeping Procedure

1. Push the sweeper across the area to be cleaned. The rotating brushes will collect leaves, grass clippings, and other light debris into the hopper bag.
2. For heavily compacted debris, multiple passes may be necessary.

Figure 3: Operating the push lawn sweeper to collect leaves.

Emptying the Hopper Bag

The hopper bag is designed for easy detachment, allowing for quick dumping of collected debris. Simply unhook the bag from the sweeper frame and empty its contents into a compost pile or waste bin.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Agri-Fab lawn sweeper. Perform seasonal maintenance to keep the unit in good working condition.

- **Cleaning:** After each use, clear any remaining debris from the brushes and hopper bag.
- **Storage:** The sweeper features a collapsible bag design for compact storage in your garage or tool shed.
- **Inspection:** Periodically inspect brushes for wear and tear. Replace worn brushes to maintain sweeping effectiveness. Check all fasteners for tightness and secure as needed.

FLAT-FREE DURABLE TIRES

TROUBLESHOOTING

Problem	Possible Cause	Solution
Sweeper not picking up debris effectively.	Brushes set too high or too low.	Adjust brush height to penetrate grass by approximately ½ inch (13mm).
Hopper bag fills too quickly.	Large volume of unmulched leaves.	Mow the lawn before sweeping to mulch leaves. Make multiple passes if necessary.
Difficulty pushing the sweeper.	Brushes set too low, creating excessive drag.	Raise the brush height slightly.

SPECIFICATIONS

- **Model:** 45-0218
- **Brand:** Agri-Fab
- **Sweeping Width:** 26 inches
- **Hopper Capacity:** 6.2 Cu. ft.
- **Power Source:** Manual
- **Material:** Poly construction, Plastic wheels
- **Color:** Black
- **Item Weight:** 25 Pounds
- **Product Dimensions:** 52.5"D x 31"W x 33"H
- **Brush to Wheel Ratio:** 5.0:1
- **Assembly Required:** Yes
