

Master Lock 646T

Master Lock 646T Set Your Own Combination Luggage Lock
INSTRUCTION MANUAL

Model: 646T | Brand: Master Lock

Product Overview

The Master Lock 646T Set Your Own Combination Padlocks are designed for durability and convenience, featuring a 13/16 inch (20mm) wide metal body. The 1/8 inch (3mm) diameter steel shackle is 11/16 inch (17mm) long, providing resistance against cutting and sawing. These locks offer keyless convenience with a 3-dial combination, making them ideal for securing luggage, backpacks, and other personal items during travel. The compact size helps deter theft and eliminates the need for carrying keys.

Key Features:

- **Durable Construction:** 13/16 inch (20mm) wide metal body for enhanced strength.
- **Steel Shackle:** 1/8 inch (3mm) diameter, 11/16 inch (17mm) long steel shackle resists cutting.
- **Keyless Convenience:** Set your own three-digit combination for easy access.
- **Versatile Use:** Ideal for luggage, backpacks, and small bags.
- **Compact Design:** Small size for easy portability and discreet security.

Setting Your Combination

Your Master Lock 646T comes preset to 0-0-0. Follow these steps to set your personalized three-digit combination:

1. **Open the Lock:** Ensure the lock is set to the default combination (0-0-0) and pull up the shackle to open it.
2. **Rotate the Shackle:** With the shackle in the open position, rotate it 90 degrees (a quarter turn) counter-clockwise.
3. **Press Down the Shackle:** While holding the shackle rotated, press it firmly down into the lock body until it clicks into place.
4. **Set Your New Combination:** With the shackle pressed down, turn the dials to your desired three-digit combination. Make sure the numbers are aligned with the indicator marks.
5. **Release and Lock:** Pull the shackle up, then rotate it back 90 degrees clockwise to its original position. Push the shackle down to lock it. Your new combination is now set.
6. **Test Your Combination:** Scramble the dials and then enter your new combination to ensure the lock opens correctly.

***Important:** Remember your combination. Master Lock does not retain user-set combinations. If you forget your combination, the lock cannot be reset.*

Operating the Lock

To open and close your Master Lock 646T:

1. **To Open:** Align the three dials to your preset combination. Once the correct combination is entered, pull the shackle upwards to release the lock.
2. **To Close:** With the shackle in the open position, insert it back into the lock body. Scramble the dials to a random set of numbers to secure the lock.

Maintenance

To ensure the longevity and smooth operation of your Master Lock 646T:

- **Cleaning:** Wipe the lock body and shackle with a soft, damp cloth to remove dirt and grime. Avoid abrasive cleaners or solvents.
- **Lubrication:** Periodically apply a small amount of graphite lubricant or a silicone-based spray to the shackle mechanism and dials to maintain smooth movement. Do not use oil-based lubricants as they can attract dirt.
- **Storage:** Store the lock in a dry environment when not in use to prevent corrosion.

Troubleshooting

If you encounter issues with your Master Lock 646T, consider the following:

- **Lock Not Opening:** Double-check that the correct combination is precisely aligned with the indicator marks. Ensure the shackle is pulled firmly.
- **Dials are Stiff:** Apply a small amount of graphite lubricant or silicone spray to the dials and work them back and forth to distribute the lubricant.
- **Forgot Combination:** Unfortunately, if you forget your custom combination, there is no master key or override code. The lock will need to be replaced. It is highly recommended to record your combination in a secure, memorable location.

Specifications
