How to Play

The objective of Disney Monopoly is to be the last player remaining with money, by buying, renting, and selling properties. Players move around the board, buying properties, and charging rent to opponents who land on them. The game incorporates classic Monopoly rules with a magical Disney twist.

Gameplay Turn Sequence:

1. **Roll the Dice:** The player rolls both dice and moves their playing piece clockwise around the board the corresponding number of spaces.
2. **Action on Space:** The action a player takes depends on the space their piece lands on:
    - **Unowned Property:** The player may buy the property from the Bank at its printed price. If they choose not to

buy it, the Banker immediately offers it for auction to the highest bidder.

- **Owned Property:** If the property is owned by another player, the current player must pay rent to the owner. Rent increases if the property has cottages or castles.
- **Magic Moments or Show Time:** Draw the top card from the respective deck and follow its instructions.
- **Go to Jail:** Move your piece directly to the "In Jail" space. You do not collect $200 for passing GO.
- **Free Parking:** No action is required.
- **GO:** When you pass or land on the "GO" space, collect $200 from the Bank.
- **Taxes:** Pay the specified tax amount to the Bank.

3. **Building Properties:** Once a player owns all properties in a color group, they can begin building White Rabbit cottages and Sleeping Beauty castles on those properties during their turn or between turns. Buildings must be evenly distributed.
4. **Trading and Mortgaging:** Players can trade properties with other players. Properties can also be mortgaged to the Bank for cash.
