Kingsley SB-SOAP

Kingsley Naturally by Kingsley Replacement Shave Soap

Model: SB-SOAP

1. INTRODUCTION

This instruction manual provides essential information for the proper use and care of your Kingsley Naturally by Kingsley Replacement Shave Soap, Model SB-SOAP. Please read this manual thoroughly before first use and retain it for future reference.

2. PRODUCT OVERVIEW

The Kingsley Naturally by Kingsley Replacement Shave Soap is a bar-form shaving soap designed to fit most standard shaving bowls and mugs. It measures approximately 3 inches (7.6 cm) in diameter and is intended to produce a lather for shaving. While the product description mentions a fresh and fragrant scent, the specifications indicate it is unscented. Please refer to product packaging for the most accurate scent information.

Figure 1: Kingsley Naturally by Kingsley Replacement Shave Soap.

Key Features:

- Designed to fit most shaving bowls and mugs.
- Measures 3 inches (7.6 cm) in diameter.
- Intended for lathering to aid in shaving.

3. SETUP

To set up your replacement shave soap:

1. Unpack the Kingsley Naturally by Kingsley Replacement Shave Soap from its packaging.
2. Place the shave soap into your preferred shaving bowl or mug. Ensure it fits securely.

4. OPERATING INSTRUCTIONS

Follow these steps for optimal shaving soap use:

1. **Prepare your brush:** Wet your shaving brush thoroughly with warm water.
2. **Load the brush:** Swirl the wet brush firmly over the surface of the shave soap in your bowl for 30-60 seconds until a rich lather begins to form on the brush bristles.
3. **Apply lather:** Apply the lather to your face in circular motions, ensuring full coverage of the area to be shaved. This

helps to lift and soften the beard.

- 4. **Shave:** Proceed with your shave. Reapply lather as needed for subsequent passes.
- 5. **Rinse:** After shaving, rinse your face thoroughly with cool water.

5. MAINTENANCE

Proper maintenance ensures the longevity of your shave soap:

- After each use, rinse any excess lather from the soap and the bowl.
- Allow the shave soap to air dry completely before covering or storing to prevent softening and bacterial growth.
- Store in a cool, dry place away from direct sunlight.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Poor lather quality	Insufficient water or soap loaded on brush.	Ensure brush is thoroughly wet. Swirl brush on soap for a longer duration (e.g., 60 seconds) to load more product.
Soap softens quickly	Not allowed to dry after use; stored in a humid environment.	Always allow soap to air dry completely after use. Store in a cool, dry place.
Soap does not fit bowl	Bowl size is incompatible with 3-inch diameter soap.	Ensure your shaving bowl or mug is compatible with a 3-inch diameter soap. Some users may carefully trim the soap to fit if necessary.

7. SPECIFICATIONS
