## Coby CVE05

# Coby CVE05 Dynamic Digital Stereo Mini Ear-bud Instruction Manual

Model: CVE05 | Brand: Coby

## PRODUCT OVERVIEW

---

The Coby CVE05 Dynamic Digital Stereo Mini Ear-buds are designed for personal audio listening, offering a lightweight and compact solution for various audio devices. These ear-buds provide digital stereo sound through a standard 3.5mm L-shape stereo plug, making them compatible with a wide range of smartphones, tablets, computers, and portable media players.

*Figure 1: Coby CVE05 Dynamic Digital Stereo Mini Ear-buds.* This image displays the Coby CVE05 ear-buds. The left ear-bud is shown from a side profile, highlighting its silver body, black ear tip, and small sound vents. The right ear-bud is shown from a front-facing angle, revealing the 'COBY' logo and 'R' for right ear, along with the silver speaker grille and sound vents. Both ear-buds feature a sleek, compact design with a chrome-like accent where the cable connects.

## SETUP

- 1. Identify Left and Right Ear-buds:** The ear-buds are typically marked with 'L' for left and 'R' for right. Ensure correct placement for optimal stereo sound.
- 2. Insert Ear-buds:** Gently insert each ear-bud into the corresponding ear canal. Adjust for a comfortable and secure fit. The lightweight design is intended for extended wear comfort.
- 3. Connect to Audio Source:** Locate the 3.5mm audio jack on your device (e.g., smartphone, tablet, computer). Insert the L-shape stereo plug of the Coby CVE05 ear-buds firmly into the device's audio jack.
- 4. Adjust Volume:** Once connected, play audio on your device and adjust the volume to a comfortable listening level using your device's volume controls.

## OPERATING INSTRUCTIONS

---

The Coby CVE05 ear-buds are designed for simple plug-and-play operation. Once connected to an audio source, they will reproduce the audio output from your device.

- **Audio Playback:** Begin playing audio (music, podcasts, videos, etc.) from your connected device. The ear-buds will transmit the digital stereo sound directly to your ears.
- **Volume Control:** All volume adjustments must be made directly on your audio source device. The Coby CVE05 ear-buds do not feature integrated volume controls.
- **Pausing/Skipping Tracks:** Control audio playback functions (play, pause, skip, rewind) directly from your audio source device.

## MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your Coby CVE05 ear-buds.

- **Cleaning:**
  - Gently wipe the exterior of the ear-buds and the cable with a soft, dry, lint-free cloth.
  - For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals, solvents, or abrasive cleaners.
  - Do not immerse the ear-buds or the plug in water or any liquid.
- **Storage:**
  - When not in use, store the ear-buds in a clean, dry place, away from extreme temperatures and direct sunlight.
  - Avoid tangling the cable. Consider coiling it loosely to prevent damage.
- **Handling:**
  - Always pull the plug, not the cable, when disconnecting the ear-buds from your device.
  - Avoid sharp bends or excessive pulling on the cable, as this can damage internal wiring.

## TROUBLESHOOTING

---

If you encounter issues with your Coby CVE05 ear-buds, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No sound from ear-buds.	<ul style="list-style-type: none"><li>• Plug not fully inserted.</li><li>• Device volume too low or muted.</li><li>• Incorrect audio output selected on device.</li><li>• Damaged cable or plug.</li></ul>	<ul style="list-style-type: none"><li>• Ensure the 3.5mm plug is fully inserted into the device's audio jack.</li><li>• Increase the volume on your audio device. Check if the device is muted.</li><li>• Verify your device's audio settings to ensure output is directed to the headphone jack.</li><li>• Test with another audio device or another pair of headphones to isolate the issue. If the cable or plug appears damaged, replacement may be necessary.</li></ul>
Sound is distorted or crackling.	<ul style="list-style-type: none"><li>• Loose connection.</li><li>• Audio source issue.</li><li>• Damaged ear-bud driver or cable.</li></ul>	<ul style="list-style-type: none"><li>• Re-insert the 3.5mm plug firmly. Try rotating it slightly.</li><li>• Test with different audio files or a different audio device to rule out source issues.</li><li>• Inspect the cable for visible damage. If distortion persists across multiple devices, the ear-buds may be faulty.</li></ul>

Problem	Possible Cause	Solution
Sound only from one ear-bud.	<ul style="list-style-type: none"> <li>Loose connection.</li> <li>Device's balance settings.</li> <li>Internal wiring damage.</li> </ul>	<ul style="list-style-type: none"> <li>Ensure the plug is fully inserted and try rotating it.</li> <li>Check your device's audio settings for balance control and ensure it is centered.</li> <li>If the issue persists, it may indicate internal damage to the ear-bud or cable.</li> </ul>

## SPECIFICATIONS

Model Name	CVE05
Brand	Coby
Connectivity Technology	Wired
Headphones Jack	3.5 mm Jack (L-shape stereo plug)
Form Factor	In Ear (Ear-bud)
Colour	Silver
Material	Plastic
Item Weight	0.08 Pounds (approximately 36.85 grams)
Product Dimensions (L x W x H)	2.29 x 2.29 x 8.51 cm
Manufacturer	Coby Electronics - Canada
Country of Origin	China

## WARRANTY AND SUPPORT

For detailed warranty information regarding your Coby CVE05 Dynamic Digital Stereo Mini Ear-buds, please refer to the warranty card included with your original purchase or visit the official Coby Electronics website. Warranty terms and conditions may vary by region and purchase date.

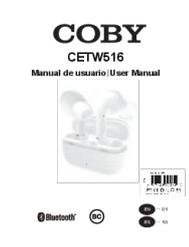

For technical support, product inquiries, or service requests, please contact Coby customer service through their official website or the contact information provided in your product packaging. When contacting support, please have your product model number (CVE05) and purchase details readily available.

*Note:* This manual provides general instructions. Specific features and troubleshooting steps may vary slightly depending on the audio device connected to the ear-buds.
