# Farberware Classic Series Stainless Steel Butter Warmer/Small Saucepan User Manual

Model: 70369

## INTRODUCTION

The Farberware Classic Series Stainless Steel Butter Warmer/Small Saucepan is designed for versatility and durability in your kitchen. Perfect for melting butter, heating small quantities of milk, cream, gravy, or sauces, this 0.625-quart capacity pot features a full cap base for efficient and even heating. Its robust stainless Steel construction ensures long-lasting performance and easy maintenance.

## KEY FEATURES

- Stainless Steel Melting Pot:** The butter warmer's full cap base features a thick aluminum core surrounded by stainless steel for rapid, even heating.
- Convenient Pouring Spout:** The heavy-duty stainless steel is polished to a mirror finish and features a convenient spout for pouring melted butter, gravy, and warmed sauces without drips.
- Oven Safe Handle:** A comfortable handle with iconic styling provides a confident grip and is oven safe to 350 degrees F (175 degrees C).
- Easy Clean Up:** This melting pot is dishwasher-safe, combining convenience with the styling and quality Farberware has delivered for decades.
- Durable Construction:** Crafted from professional quality 18/10 stainless steel, designed for high performance and longevity.
- Versatile for All Cooktops:** Suitable for use on gas, electric, glass, and induction stovetops.

## SETUP

- Unpack:** Carefully remove the butter warmer from its packaging. Retain packaging for future storage or transport if needed.
- Initial Cleaning:** Before first use, wash the butter warmer thoroughly with warm, soapy water. Rinse completely and dry immediately to prevent water spots.
- Inspect:** Check the pot for any signs of damage or manufacturing defects. Do not use if damaged.

## OPERATING INSTRUCTIONS

The Farberware Classic Series Butter Warmer is designed for efficient heating of small quantities. Follow these guidelines for optimal performance:

- **Stovetop Compatibility:** This pot is suitable for all stovetops, including gas, electric, glass, and induction. Ensure the pot is centered on the burner for even heat distribution.
- **Heat Settings:** For best results and to prevent scorching, heat your pan on medium to low heat. High heat is generally not required for the small volume this pot handles.
- **Melting Butter:** Place butter in the pot and heat on low. Stir occasionally until melted. The pouring spout allows for easy drizzling.
- **Warming Liquids:** Add desired liquid (milk, cream, sauce) to the pot. Heat gently on low to medium-low heat, stirring frequently to prevent sticking or burning.
- **Oven Use:** The pot is oven safe up to 350°F (175°C). Ensure the handle is not exposed to direct flame or excessive heat beyond this temperature.

**DURABLE STAINLESS STEEL**

**HIGH PERFORMANCE THAT LASTS A LIFETIME**

**FARBERWARE®**

## MAINTENANCE AND CARE

Proper care will extend the life and maintain the appearance of your Farberware butter warmer.

- **Cleaning:** The pot is dishwasher safe for convenient cleanup. For hand washing, use warm, soapy water and a soft sponge or cloth. Avoid abrasive cleaners, steel wool, or scouring pads, as these can scratch the stainless steel finish.
- **Drying:** Dry the pot immediately after washing to prevent water spots, especially in areas with hard water.
- **Cooking Sprays:** Do not use cooking sprays. Instead, use a small amount of butter or oil if needed to prevent sticking.
- **Utensils:** While durable, stainless steel can scratch. Use silicone, wood, or plastic utensils to preserve the interior finish.
- **Storage:** Store in a dry place. If stacking with other cookware, place a cloth or paper towel between items to prevent scratches.

**EASY CLEAN  
DISHWASHER SAFE**

**FOR CONVENIENT AND  
EFFORTLESS CLEANUP**

## TROUBLESHOOTING

Issue	Possible Cause	Solution
White spots or mineral deposits on interior.	Hard water minerals or starch from certain foods (e.g., onions, dried beans).	Fill the pot with a mixture of 1/2 cup white vinegar and 1 1/2 cups water. Bring to a boil, then remove from heat and let sit for at least 5 minutes. Rinse and dry.
Food sticking to the bottom.	Insufficient oil/butter, heat too high, or not preheating properly. Stainless steel is not inherently non-stick.	Ensure a small amount of oil or butter is used. Preheat the pot on medium-low heat before adding food. Cook with patience and adjust heat as needed.
Discoloration (blue/rainbow tint).	Overheating the empty pan or certain foods reacting with the stainless steel.	This is typically harmless and cosmetic. It can often be removed with a stainless steel cleaner or a mixture of vinegar and water. Avoid heating an empty pan on high heat.
Handle becomes hot during stovetop use.	Heat source too large for the pot, causing flame/heat to extend up the sides.	Ensure the burner size matches the base of the pot. The handle is designed to stay cool on the stovetop under normal use, but extreme heat can affect it. Use oven mitts if necessary.

## SPECIFICATIONS

Attribute	Detail
<b>Brand</b>	Farberware
<b>Model Number</b>	70369
<b>Material</b>	Stainless Steel
<b>Capacity</b>	0.625 Quart (approx. 0.6 Liters)
