Disney Treasure Planet: Battle at Procyon PC Game Manual

Model: 044702017737

INTRODUCTION

Welcome to *Treasure Planet: Battle at Procyon*, a real-time strategy game developed by Disney Interactive Studios. This manual provides essential information for installing, playing, and maintaining your game. Command a fleet of solar-sail powered spaceships in an epic quest to defend the Queen and Empire from space pirates and a mysterious new adversary. Engage in strategic combat, customize your vessels, and explore the universe of Treasure Planet.

SETUP

System Requirements

Ensure your PC meets the minimum system requirements specified on the game packaging before installation. Insufficient system resources may lead to performance issues or installation failure.

Installation Process

1. Insert the *Treasure Planet: Battle at Procyon* game disc into your PC's optical drive.
2. If the installer does not launch automatically, navigate to 'My Computer' or 'This PC', locate your optical drive, and double-click the 'Setup.exe' or 'Install.exe' file.
3. Follow the on-screen instructions provided by the installation wizard. This typically involves accepting the End User License Agreement, choosing an installation directory, and selecting components.
4. Once the installation is complete, you may be prompted to restart your computer. It is recommended to do so to ensure all changes are applied correctly.
5. After restarting, locate the game shortcut on your desktop or in the Start Menu to launch the game.

OPERATING INSTRUCTIONS (GAMEPLAY)

Treasure Planet: Battle at Procyon offers various gameplay modes and strategic depth. Understanding the core mechanics is key to success.

Game Modes

- **Single Player Mode:** Engage in battle training, customize your ships and weapons, and embark on story-driven missions.
- **Multiplayer Mode:** Compete against up to four players online. Choose your ships, crew, and weapons for strategic engagements.
- **Skirmish Mode:** Instantly jump into mini-battle action against AI opponents, allowing for quick engagements and practice.

Ship Command and Combat

You will command intricately rendered solar, sail-powered spaceships. The game features an intuitive interface for advanced options, allowing you to:

- **Navigate:** Use the on-screen compass and controls to direct your ships through space.
- **Targeting:** Engage enemy vessels. The game features location-specific damage, allowing you to target specific parts of enemy ships. For example, targeting sails can slow down opponents, destroying weapons can disarm them, and hitting the rudder can impair their maneuverability.
- **Weapons:** Utilize a variety of weapon types, each with distinct characteristics and tactical applications.
- **Fleet Management:** In later stages, you will manage multiple ships, issuing commands to your fleet to achieve objectives.

MAINTENANCE

To ensure optimal performance and longevity of your game, consider the following maintenance tips:

- **Keep Drivers Updated:** Ensure your graphics card drivers and other system drivers are up to date. Visit your hardware manufacturer's website for the latest versions.
- **Disc Care:** If using a physical disc, handle it carefully to avoid scratches. Store it in its original case when not in use.
- **Save Game Data:** Regularly save your game progress. Consider backing up your save game files, typically located in your 'Documents' folder or the game's installation directory.
- **System Optimization:** Close unnecessary background applications while playing to free up system resources.

TROUBLESHOOTING

If you encounter issues while playing *Treasure Planet: Battle at Procyon*, try the following solutions:

- **Game Not Launching:**

- Verify system requirements.
- Ensure the game is installed correctly. Try reinstalling if necessary.
- Run the game as an administrator.
- Check for compatibility modes if running on a newer operating system.

- **Performance Issues (Lag, Low FPS):**

- Update graphics drivers.
- Lower in-game graphics settings.
- Close background applications.
- Ensure your PC meets recommended system requirements.

- **Game Crashes:**

- Ensure all system drivers are updated.
- Check for any available game patches or updates.
- Disable any third-party overlays or recording software.
- Perform a clean reinstallation of the game.
