## GPX D504

# GPX D504 AM/FM Digital Clock Radio User Manual

Model: D504

## INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your GPX D504 AM/FM Digital Clock Radio. Please read this manual thoroughly before using the device to ensure proper functionality and longevity.

Figure 1: GPX D504 AM/FM Digital Clock Radio. This image displays the front of the clock radio, featuring a large red digital time display, several control buttons on the top surface, and an integrated speaker grille. The radio is black with a curved, compact design.

## SETUP

### Power Connection

1. Unpack the GPX D504 clock radio and all accessories from its packaging.
2. Connect the AC power cord to a standard wall outlet.
3. For battery backup, insert a 9V battery (not included) into the battery compartment located on the bottom of the unit. This battery will preserve time and alarm settings during a power outage.

### Setting the Time

1. Press and hold the **TIME SET** button. The hour digits will begin to flash.
2. Press the **HOUR** button repeatedly to set the correct hour. Pay attention to the PM indicator if applicable.
3. Press the **MINUTE** button repeatedly to set the correct minute.

4. Release the **TIME SET** button to confirm the time.

## OPERATING INSTRUCTIONS

---

### Radio Operation (AM/FM)

1. Press the **POWER** button to turn on the radio.
2. Press the **BAND** button to select either AM or FM band.
3. Use the **TUNING** knob or buttons to tune to your desired radio station.
4. Adjust the volume using the **VOLUME** control.
5. To turn off the radio, press the **POWER** button again.

### Setting the Alarm

1. Press and hold the **ALARM SET** button. The alarm hour digits will flash.
2. Press the **HOUR** button to set the desired alarm hour.
3. Press the **MINUTE** button to set the desired alarm minute.
4. Release the **ALARM SET** button.
5. To select the alarm source (radio or buzzer), press the **ALARM MODE** button repeatedly until the desired icon appears on the display.

### Snooze Function

When the alarm sounds, press the large **SNOOZE** bar located on top of the unit. The alarm will temporarily stop and sound again after approximately 9 minutes.

### Sleep Timer

The adjustable 120-minute sleep timer allows the radio to play for a set duration before automatically turning off. To activate, press the **SLEEP** button repeatedly to cycle through available sleep times (e.g., 120, 90, 60, 30, 15 minutes, or OFF).

## MAINTENANCE

---

### Cleaning

- Unplug the unit from the power outlet before cleaning.
- Use a soft, dry cloth to wipe the exterior surfaces.
- Do not use abrasive cleaners, waxes, or solvents as they may damage the finish.

### Battery Replacement

- If the battery backup is not functioning during a power outage, replace the 9V battery in the compartment.
- Ensure correct polarity when inserting the new battery.
- Dispose of old batteries responsibly according to local regulations.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Unit does not power on.	Power cord not securely plugged in.	Ensure the power cord is firmly connected to the unit and the wall outlet.
Radio reception is poor.	Antenna not extended or positioned correctly. Interference from other electronic devices.	Extend the FM wire antenna fully. For AM, rotate the unit for best reception. Move the unit away from other electronics.
Alarm does not sound.	Alarm not set or alarm volume too low. Alarm mode set incorrectly.	Verify alarm time and ensure alarm is activated. Check alarm volume. Ensure alarm mode is set to radio or buzzer.
Time display is incorrect after power outage.	Battery backup is dead or missing.	Replace the 9V battery in the battery compartment.

## SPECIFICATIONS

- Model:** D504
- Brand:** GPX
- Power Source:** AC 120V ~ 60Hz, 9V battery for backup (not included)
- Radio Frequency:** AM 530-1700 kHz, FM 88-108 MHz
