### Frontline 74273

## FRONTLINE Plus Flea and Tick Treatment for Small Dogs (5-22 lbs)

Model: 74273

### INTRODUCTION

FRONTLINE Plus for Dogs is a fast-acting, long-lasting, and waterproof topical treatment designed to protect your dog from fleas and ticks. This product is formulated with fipronil and (S)-methoprene to effectively kill existing adult fleas, flea eggs, flea larvae, chewing lice, and ticks that can transmit Lyme disease. It works by breaking the flea life cycle and guarding against further infestations. Trusted by pet owners, FRONTLINE Plus for Dogs is easy to apply and provides a full 30 days of protection with just one monthly dose.

## APPLICATION INSTRUCTIONS

Follow these steps for proper application of FRONTLINE Plus for Dogs:

1. **To Remove Applicator:** Use scissors to separate one blister. Use scissors to cut along the dotted line. Peel down foil to remove the applicator.
2. **Open Applicator:** Hold upright with the foil side toward you and snap the applicator tip.
3. **Apply FRONTLINE Plus:** Part the dog's hair between the shoulder blades. Place the applicator tip just above the skin and squeeze. Apply the entire contents of the applicator in a single spot directly onto the dog's skin. Do not apply on top of the hair coat. Avoid contact with the treated area until dry.

### **HOW TO APPLY:**

- 1.** Hold upright with foil side toward you and snap applicator tip.

Image: Step 1 of application: Hold applicator upright and snap the tip.

### **HOW TO APPLY:**

- 2.** Part hair and apply on shoulder blades completely emptying the pipette.

Image: Step 2 of application: Part hair and apply the entire contents of the pipette to the skin between the shoulder blades.

### **HOW TO APPLY:**

- 3.** Leave the protection to spread through your pet's coat.

Image: Step 3 of application: Allow the protection to spread through your pet's coat.

## USAGE FREQUENCY

---

Use monthly to control fleas and ticks. Do not reapply FRONTLINE Plus for 30 days. Consistent monthly application is crucial for effective control and prevention of new infestations.

## MAINTENANCE

---

To maintain effective flea and tick control, treat all dogs in your household monthly. This prevents the establishment of new flea infestations and ensures continuous protection for all pets.
