2. SAFETY INFORMATION

Observe the following safety precautions to prevent personal injury and damage to devices.

- **Do not** recharge, disassemble, heat, or incinerate batteries.
- **Do not** mix old and new batteries, or different types of batteries.
- **Do not** insert batteries with incorrect polarity (+/-).
- Keep batteries out of reach of small children. If swallowed, seek medical attention immediately.
- Remove exhausted batteries promptly from devices.

- Store batteries in a cool, dry place at room temperature.
- Avoid direct contact with battery terminals.

3. SETUP AND INSTALLATION

Follow these steps to properly install the EVEREADY Gold Alkaline 9V battery into your device.

1. **Identify Battery Compartment:** Locate the battery compartment on your device. This is typically found on the back or bottom of the device and may be secured with a screw or latch.
2. **Open Compartment:** Open the battery compartment cover. If a screw is present, use an appropriate screwdriver to remove it.
3. **Observe Polarity:** Note the polarity markings (+ and -) inside the battery compartment. These indicate the correct orientation for battery insertion.
4. **Insert Battery:** Align the positive (+) terminal of the EVEREADY Gold 9V battery with the positive (+) marking in the compartment, and the negative (-) terminal with the negative (-) marking. Gently push the battery into place.
5. **Close Compartment:** Replace the battery compartment cover and secure it. If a screw was removed, fasten it back into place.
