Logitech 970103-0403

Logitech Labtec Pulse 375 Speaker System User Manual

Model: 970103-0403

INTRODUCTION

The Logitech Labtec Pulse 375 is a 2.1-channel speaker system designed to deliver a full range of sound for your PC music, games, and movies. It features stylish flat-panel satellite speakers and a powerful Max-X high-excursion subwoofer for enhanced bass. A convenient control pod allows for easy access to power and volume.

Key features include:

- 2.1-channel setup for rich audio.
- Max-X high-excursion subwoofer for deep bass.
- Space-saving flat panel speaker design.
- Control pod for convenient power and volume adjustments.
- Wood subwoofer construction for solid audio performance.
- Total RMS power of 10 watts (2 watts x 2 satellites plus 6-watt subwoofer).

WHAT'S IN THE BOX

Carefully unpack all components and ensure the following items are present:

- Two satellite speakers
- One subwoofer
- One control pod
- One AC power adapter
- Color-coded audio cables
- User's manual (this document)

SETUP

1. **Positioning Speakers:** Place the two satellite speakers on either side of your computer monitor or listening area. Ensure they are equidistant from your listening position for optimal stereo sound.

2. **Positioning Subwoofer:** Place the subwoofer on the floor, preferably under your desk or in a corner, to enhance bass response.

3. **Connecting Satellite Speakers:** Connect the color-coded audio cables from the satellite speakers to the corresponding ports on the subwoofer.

4. **Connecting Control Pod:** Plug the control pod cable into the designated port on the subwoofer.

5. **Connecting to Audio Source:** Connect the 3.5mm audio cable from the control pod to the audio output jack (headphone jack or line-out) on your computer, portable CD player, MP3 player, or other compatible device.

6. **Power Connection:** Connect the AC power adapter to the subwoofer and then plug it into a standard electrical outlet.

Note: *Always ensure all connections are secure before powering on the system.*

OPERATING INSTRUCTIONS

1. **Power On/Off:** Use the power button located on the control pod to turn the speaker system on or off. An indicator light on the control pod will illuminate when the system is powered on.

2. **Volume Control:** Rotate the volume dial on the control pod clockwise to increase the volume and counter-clockwise to decrease it.

3. **Audio Source:** Ensure your audio source (computer, MP3 player, etc.) is playing audio and its volume is set to an appropriate level.

The Labtec Pulse 375 is ideal for use with computers, portable CD players, and MP3 players, providing clear and powerful audio for various multimedia applications.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the speakers and subwoofer. Do not use liquid cleaners or abrasive materials.

- **Ventilation:** Ensure the subwoofer and satellite speakers have adequate ventilation. Do not block any vents.

- **Environment:** Avoid exposing the speaker system to excessive moisture, dust, or extreme temperatures.
- **Cable Management:** Keep cables organized and untangled to prevent damage and ensure safety.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound	System not powered on. Volume turned down. Cables not connected properly. Audio source not playing or muted.	Press the power button on the control pod. Increase volume using the control pod. Check all audio and power connections. Ensure audio source is playing and not muted.
Distorted sound	Volume too high. Poor audio source quality. Loose cable connection.	Decrease volume. Try a different audio source. Check and secure all cable connections.
Subwoofer not working	Subwoofer cable loose. Power issue.	Ensure subwoofer cable is securely connected. Verify power adapter is properly connected and receiving power.
