3. SETUP: BEFORE FIRST USE

Before using your new Oneida Flight flatware set for the first time, it is recommended to wash all pieces thoroughly. This will remove any manufacturing residues and ensure the flatware is clean and ready for use.

1. **Unpack:** Carefully remove all flatware pieces from their packaging.
2. **Wash:** Wash the flatware by hand with warm, soapy water or place them in the dishwasher. Refer to the "Maintenance & Care" section for detailed cleaning instructions.
3. **Dry:** Dry immediately with a soft cloth to prevent water spots, especially if hand washing.

4. OPERATING & USE

The Oneida Flight flatware set is designed for comfortable and efficient use in various dining scenarios. Each piece serves a specific purpose to enhance your dining experience.

- **Dinner Forks & Knives:** Use for main courses. The knives feature a serrated edge for effective cutting.
- **Salad/Dessert Forks:** Their smaller size makes them ideal for salads, appetizers, or desserts.
- **Dinner Spoons:** Perfect for soups, stews, and larger portions of food.
- **Teaspoons:** Suitable for stirring beverages, eating desserts, or smaller side dishes.
- **Serving Utensils:** The serving spoons, pierced serving spoon, sugar spoon, and butter knife are designed for communal serving, ensuring a cohesive table setting.

5. MAINTENANCE & CARE

Proper care will ensure the longevity and pristine appearance of your Oneida Flight Stainless Steel Flatware. This set is designed for easy maintenance.

Dishwasher Safe

All pieces of the Oneida Flight flatware set are dishwasher safe. For best results and to maintain their polished

finish, follow these guidelines:

- **Load Properly:** Place forks and spoons with handles down in the dishwasher basket. Knives should be placed with handles up to prevent accidental injury and ensure thorough cleaning of the blade.
- **Avoid Overloading:** Do not overcrowd the dishwasher, as this can prevent proper cleaning and rinsing.
- **Use Recommended Detergent:** Use a high-quality dishwasher detergent. Avoid detergents with lemon or citrus additives, which can sometimes cause corrosion or spotting on stainless steel.
- **Remove Promptly:** Remove flatware from the dishwasher as soon as the cycle is complete and dry immediately with a soft cloth to prevent water spots and maintain shine.

Hand Washing

If hand washing, use warm water and a mild dish soap. Avoid abrasive scrubbers or harsh chemicals that could scratch the surface. Dry immediately after washing to prevent water spots.

Storage

Store your flatware in a dry environment. A flatware tray or drawer organizer can help prevent scratching and keep pieces organized.

6. TROUBLESHOOTING

While your Oneida Flight flatware is designed for durability, occasional issues may arise. Here are some common concerns and their solutions:

- **Water Spots:** If water spots appear after washing, it is usually due to hard water or allowing the flatware to air dry. To prevent this, dry the flatware immediately after washing with a soft, lint-free cloth. A rinse aid in the dishwasher can also help.
- **Minor Scratches:** Stainless steel can develop minor scratches over time with regular use. These are generally cosmetic and do not affect performance. Avoid abrasive cleaners or stacking flatware haphazardly to minimize scratching.
- **Rust or Corrosion:** Although made of 18/0 stainless steel, prolonged exposure to acidic foods, harsh chemicals, or moisture can potentially lead to discoloration or minor corrosion. Rinse flatware immediately after use, especially after contact with acidic foods like tomatoes or citrus. Ensure proper drying after washing.
