1. INTRODUCTION

The Suncast Hangout HH150 is a durable, wall-mounted resin garden hose holder designed to provide convenient and organized storage for your garden hose. This manual provides essential information for the safe and effective installation, operation, and maintenance of your hose holder.

2. FEATURES

- **Wall-Mounted Design:** Easily mounts on fencing, your house, or a wall for compact hose storage.
- **Integrated Storage Tray:** A built-in shelf is provided for organizing small garden tools, nozzles, or other accessories.
- **Durable Resin Construction:** Made from robust resin material designed for outdoor use.
- **High Capacity:** Designed to hold up to 150 feet of 5/8-inch garden hose.
- **Aesthetic Design:** Taupe finish blends with most exterior paint colors and outdoor decor.
- **Compact Size:** Measures 6" x 12" x 11", ideal for smaller spaces.

3. PACKAGE CONTENTS

Upon opening your package, ensure all items are present:

- 1 x Suncast Hangout HH150 Wall-Mounted Hose Holder

Note: Mounting screws are not included and must be purchased separately based on your mounting surface.

4. SAFETY INFORMATION

- Always wear appropriate safety gear, such as eye protection, when drilling or installing.
- Ensure the mounting surface is structurally sound and can support the weight of the hose holder and a full hose (up to 150 ft of 5/8" hose can be heavy when filled with water).
- Use appropriate hardware (screws, anchors) for your specific wall type (wood, stucco, masonry, etc.).
- Keep children and pets away from the installation area.
- Do not overload the hose holder beyond its stated capacity.

5. SETUP & INSTALLATION

The Suncast Hangout HH150 is designed for easy wall mounting. Follow these steps for secure installation:

1. **Choose a Location:** Select a sturdy wall, fence, or other vertical surface near your water source. Ensure there is enough clearance for the hose and any accessories.
2. **Mark Drilling Points:** Hold the hose holder against the desired mounting surface. Use a pencil to mark the locations for the mounting screws through the designated holes on the back of the unit.
3. **Drill Pilot Holes:** Using a drill bit appropriate for your chosen screws and mounting surface, drill pilot holes at the marked locations.
4. **Secure the Holder:** Align the hose holder with the pilot holes. Insert and tighten appropriate mounting screws (not included) until the holder is firmly secured to the surface. Do not overtighten.

Installation Demonstration Videos:

Video: An honest review of the SunCast Mounted Hose Hanger, demonstrating its wall-mounted design and showing the screw points for installation. The video highlights how the unit saves space and keeps the garden organized, accommodating up to 150 feet of hose.

Video: A review of the hose mount, showing how it looks when installed and emphasizing its easy installation process. The video also points out the integrated shelf for accessories.

6. OPERATION

Using your SunCast Hangout HH150 is straightforward:

1. **Coiling the Hose:** After use, carefully coil your garden hose around the main body of the holder. Start from the end connected to the spigot and work your way outwards, ensuring the hose is neatly wrapped to prevent kinks and tangles.
2. **Uncoiling the Hose:** To use the hose, simply uncoil the desired length from the holder.
3. **Using the Storage Tray:** The integrated tray can be used to store small watering accessories such as nozzles, connectors, or gardening gloves.

Wall-Mounted Garden Hose Holder

Operation Demonstration Video:

Video: A review highlighting the functionality of the Suncast Hose Hanger. The video demonstrates how the hose is kept neat and off the ground, and mentions the durable resin material and the convenient storage tray for nozzles.

7. MAINTENANCE

To ensure the longevity and appearance of your Suncast Hangout HH150:

- **Cleaning:** Wipe down the hose holder periodically with a damp cloth to remove dirt, dust, and debris. For stubborn stains, a mild soap solution can be used. Rinse thoroughly and dry.
- **Inspection:** Regularly check the mounting screws to ensure they remain tight and secure. Inspect the resin for any signs of damage or wear.
- **Sun Exposure:** While durable, prolonged exposure to intense direct sunlight over many years may affect the material. Consider placement in a partially shaded area if possible to extend its life.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Hose holder feels loose on the wall.	Mounting screws are not tight or appropriate for the surface.	Tighten existing screws. If still loose, consider using longer screws or wall anchors suitable for your wall material. Ensure the mounting surface is sound.
Hose does not fit or is difficult to coil.	Hose exceeds the recommended capacity or is too stiff.	Ensure your hose is within the 150 ft (5/8" diameter) capacity. Try coiling the hose more loosely or consider a shorter/more flexible hose.
Accessories do not stay in the tray.	Accessories are too large or heavy for the tray.	The tray is designed for small, lightweight items like nozzles. Avoid placing oversized or heavy tools in the tray.

9. SPECIFICATIONS

Attribute	Detail
Brand	Suncast
Model Number	CPLHH15000
Material	Resin
Color	Light Taupe
Item Dimensions (L x W x H)	6 x 12 x 11 inches
Hose Capacity	150 feet of 5/8" hose
Installation Method	Screw In, Wall Mount
Operation Mode	Manual

10. WARRANTY INFORMATION

This product is covered by a Manufacturer Warranty. For specific details regarding warranty coverage, terms, and conditions, please refer to the documentation included with your purchase or visit the official Suncast website.

11. CUSTOMER SUPPORT

If you have any questions, require assistance with installation, or need to report a problem with your Suncast Hangout HH150, please contact Suncast customer service. Contact information can typically be found on the product packaging or on the official Suncast website (www.suncast.com).
