Wiha 36492 Torx T-Handle Set - 7 Piece Instruction Manual

Model: 36492 | Brand: Wiha

1. INTRODUCTION

This manual provides essential information for the safe and effective use of your Wiha 36492 Torx T-Handle Set. Please read these instructions thoroughly before using the tools to ensure proper operation, maintenance, and longevity of the product. This set is designed for professional and DIY applications requiring Torx fasteners.

2. PRODUCT OVERVIEW

The Wiha 36492 Torx T-Handle Set includes seven individual Torx drivers, each featuring an ergonomic comfort grip T-handle for enhanced leverage and control. The blades are constructed from CVM steel, hardened, and finished with hard chrome for durability and corrosion resistance.

2.1 Components Included

- T9 x 100mm Torx T-Handle Driver
- T10 x 100mm Torx T-Handle Driver
- T15 x 200mm Torx T-Handle Driver
- T20 x 200mm Torx T-Handle Driver
- T25 x 200mm Torx T-Handle Driver
- T27 x 200mm Torx T-Handle Driver
- T30 x 200mm Torx T-Handle Driver

2.2 Product Features

- **Ergonomic T-Handle:** Designed for comfortable grip and maximum torque transfer.
- **High-Quality Blade Material:** CVM steel, hardened for strength and wear resistance.
- **Hard Chrome Finish:** Provides corrosion protection and a smooth surface.
- **Precise Torx Tips:** Ensures a secure fit into Torx fasteners, reducing cam-out.

Figure 3: The Wiha Torx T-Handle Set arranged to show the distinct sizes and handle grips.

3. SETUP

The Wiha 36492 Torx T-Handle Set requires minimal setup. Upon receiving the product, carefully remove all tools from their packaging. Inspect each tool for any signs of damage that may have occurred during shipping. Identify the desired Torx size (T9, T10, T15, T20, T25, T27, T30) by the markings on the handle or blade before use.

4. OPERATING INSTRUCTIONS

Using the Wiha Torx T-Handle drivers correctly ensures efficient work and prevents damage to fasteners or tools.

1. **Select the Correct Size:** Always match the Torx driver size precisely to the fastener. Using an incorrect size can strip the fastener head or damage the tool tip.
2. **Insert the Driver:** Insert the Torx tip fully into the fastener head. Ensure a snug fit with no wobble.
3. **Apply Torque:** Grip the T-handle firmly. For tightening, turn clockwise. For loosening, turn counter-clockwise. Apply

steady, even pressure. The T-handle design allows for significant leverage; avoid excessive force that could damage the fastener or the workpiece.

- 4. **Maintain Control:** Keep a firm grip on the handle throughout the operation to prevent the tool from slipping.
- 5. **Storage:** After use, clean the tools and store them in a dry place, preferably in their original tray or a tool organizer, to protect them from damage and loss.

5. MAINTENANCE

Proper maintenance extends the life of your Wiha Torx T-Handle Set.

- **Cleaning:** Wipe tools clean after each use to remove dirt, grease, or debris. A clean cloth is usually sufficient. For stubborn grime, a mild solvent can be used, ensuring it does not damage the handle material.
- **Inspection:** Periodically inspect the tips of the drivers for wear, bending, or chipping. Inspect the handles for cracks or damage. Damaged tools should be replaced to prevent injury or damage to fasteners.
- **Storage:** Store tools in a dry environment to prevent rust. Avoid storing them in areas with high humidity or corrosive chemicals.

6. TROUBLESHOOTING

While these tools are robust, issues can arise from improper use.

- **Fastener Head Stripped:** If a fastener head becomes stripped, it is usually due to using the wrong size driver or applying excessive rotational force without proper engagement. Ensure the correct size is used and apply firm, steady pressure.
- **Tool Tip Damage:** Damage to the tool tip (e.g., rounding, chipping) indicates either improper use (e.g., using as a pry bar, excessive force on a stuck fastener) or using the wrong size. Replace damaged tools immediately.
- **Stuck Fastener:** For very tight or rusted fasteners, consider using penetrating oil or a different method of removal. Do not force the T-handle driver beyond its intended use, as this can damage both the tool and the fastener.

7. SPECIFICATIONS

Feature	Detail
Brand	Wiha
Model Number	36492
Set Type	Torx T-Handle Set
Number of Pieces	7
Sizes Included	T9, T10, T15, T20, T25, T27, T30
Blade Material	CVM Steel, hardened
Blade Finish	Hard Chrome
Handle Type	Ergonomic Comfort Grip T-Handle
Item Weight	Approximately 1.06 - 1.1 Pounds (total set)
Product Dimensions	3.4 x 6.8 x 11.3 inches (packaging)

8. SAFETY INFORMATION

Always prioritize safety when using hand tools.

- **Eye Protection:** Always wear appropriate eye protection (safety glasses or goggles) when using hand tools to protect against flying debris.
- **Proper Tool Selection:** Use the correct tool for the job. Never use a Torx driver as a chisel, pry bar, or punch.
- **Inspect Tools:** Before each use, inspect tools for damage. Do not use damaged or worn tools.
- **Secure Workpiece:** Ensure the workpiece is stable and secured to prevent movement during operation.
- **Maintain Grip:** Keep hands and fingers clear of pinch points and moving parts.
- **Storage:** Store tools safely out of reach of children and in a manner that prevents damage.
- **Proposition 65 Warning:** This product may expose you to chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

9. WARRANTY AND SUPPORT

For warranty information or technical support regarding your Wiha 36492 Torx T-Handle Set, please refer to the official Wiha website or contact their customer service department. Wiha tools are known for their quality and durability, and the manufacturer typically provides support for their products.
