With the Secret Silks trick, a silk scarf can be made to vanish or change color using a specially designed bag. The bag features a hidden compartment that allows for the manipulation of the silk.

4. Great Escape

This trick involves a small figure or object escaping from a seemingly locked enclosure. The mechanism allows for a clever release, creating a surprising escape.

5. Magic Number Prediction

Predict a chosen number using a set of specially designed cards. The arrangement of numbers on the cards allows the magician to determine the selected number through a simple process.

6. Money Maker

Transform blank paper into currency or change the denomination of a bill. This trick uses a clever roller mechanism to create the illusion of money appearing or changing.

7. Egyptian Prediction

A prediction trick often involving symbols or images related to ancient Egypt. The magician predicts a choice made by the audience, revealing it from a sealed container or scroll.

8. Vanishing Zone

Make a small object disappear from a designated "vanishing zone." This trick utilizes a false bottom or hidden compartment to create the illusion of disappearance.

9. Cylinder Squeeze

An object placed inside a cylinder appears to be squeezed or compressed, then restored. This trick relies on a clever design that allows for the manipulation of the object within the cylinder.

10. Vanishing Coin

Similar to the Magic Coin Box, this trick focuses on making a coin vanish from sight. The mechanism allows the coin to be secretly removed or hidden, creating a surprising effect.
