## ClosetMaid 3051

# ClosetMaid 11 in. Pull Out Cabinet Organizer

Brand: ClosetMaid | Model: 3051

## INTRODUCTION

The ClosetMaid 11 in. Pull Out Cabinet Organizer is designed to enhance the functionality and accessibility of your kitchen, pantry, or bathroom base cabinets. This heavy-duty, single-tier slide-out drawer provides a convenient solution for organizing various items, from pots and pans to cleaning supplies and toiletries. Its robust construction and smooth-gliding mechanism ensure long-lasting performance and ease of use, transforming cluttered spaces into organized, efficient storage areas.

## SAFETY INFORMATION

Please read all instructions carefully before assembly and installation. Ensure all components are securely fastened to prevent injury or damage. Do not overload the organizer beyond its stated weight capacity. Keep small parts away from children during assembly. Always use appropriate safety gear, such as gloves and eye protection, when handling tools.

## PACKAGE CONTENTS

Your ClosetMaid 11 in. Pull Out Cabinet Organizer package includes the following components:

- 1 x Pull Out Cabinet Organizer Basket
- 1 x Set of Assembly & Installation Hardware (screws, brackets, etc.)

## SETUP AND INSTALLATION

This cabinet organizer is designed for easy installation into existing base cabinets. All necessary hardware is included. For detailed step-by-step instructions, please refer to the official installation manual. A minimum cabinet opening of 12 inches is required for proper fit and function.

### Important Considerations:

- Measure your cabinet dimensions carefully to ensure adequate clearance, especially if there are pipes or other obstructions under sinks.
- The exterior frames of the organizer protrude slightly, so account for this when measuring to ensure your cabinet door can close fully. A recommended distance of 1.75 inches from the cabinet edge to the front of the frame is crucial.
- Installation may require some manual dexterity, particularly in tight spaces.
- Consider pilot drilling screw holes for easier and more secure installation into wood surfaces.

## OPERATING INSTRUCTIONS

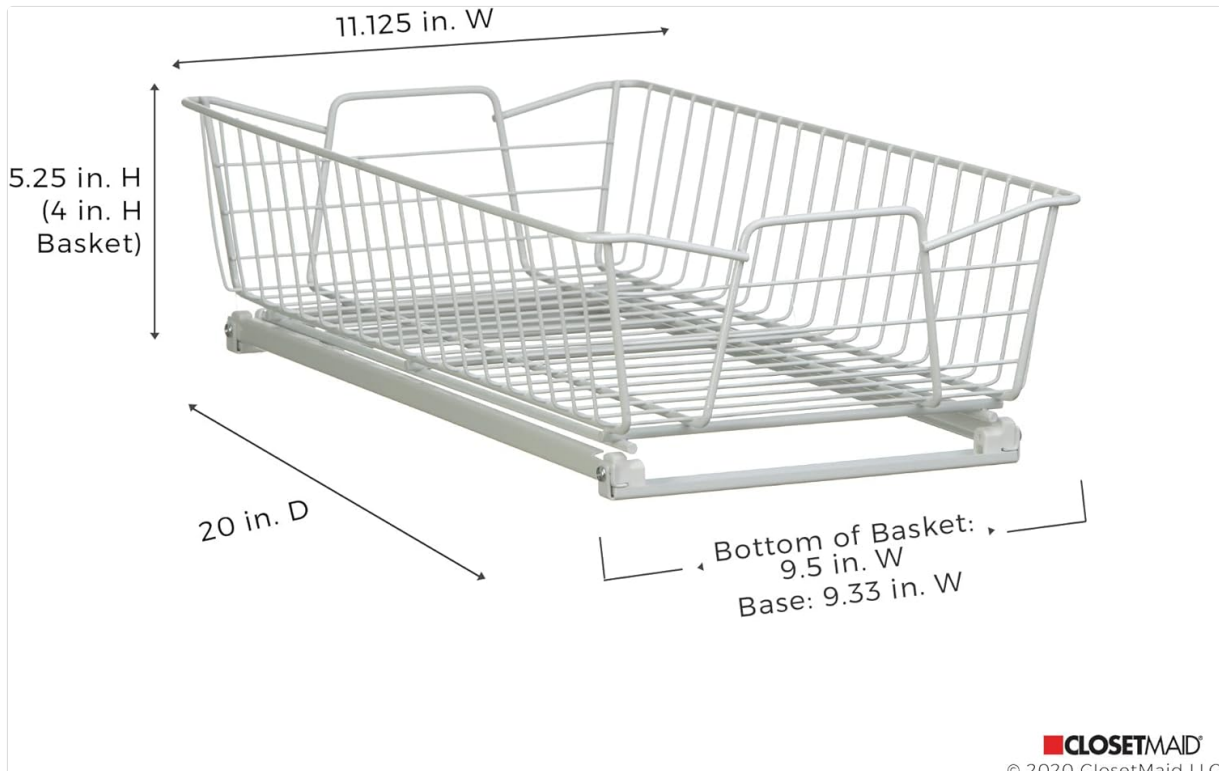

Once installed, the ClosetMaid Pull Out Cabinet Organizer provides effortless access to your stored items. Simply pull the basket forward to extend it fully from the cabinet. The easy-glide system ensures a smooth and stable motion, even when the basket is loaded. Push the basket back into the cabinet until it is fully retracted.

## MAINTENANCE

---

To maintain the appearance and functionality of your ClosetMaid Pull Out Cabinet Organizer, regularly wipe down the epoxy-coated steel surfaces with a soft, damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these may damage the finish. Ensure the glide system remains free of debris for smooth operation.

## TROUBLESHOOTING

---

If you experience any issues with your cabinet organizer, consider the following:

- **Difficulty Sliding:** Check if the rails are clean and free of obstructions. Ensure the organizer is not overloaded beyond its weight capacity. Verify that the installation screws are securely tightened.
- **Cabinet Door Not Closing:** Re-check the installation measurements, particularly the distance from the cabinet edge to the front of the organizer. Adjust if necessary to ensure sufficient clearance for the door.
- **Instability:** Confirm that all mounting screws are firmly secured to the cabinet base. Ensure the cabinet surface is flat and stable.

For persistent issues, please refer to the detailed installation manual or contact ClosetMaid customer support.
