Diatomaceous Earth DE10

Diatomaceous Earth 10 LBS Food Grade Powder Instruction Manual

Model: DE10

1. Product Overview

Diatomaceous Earth (DE) is a natural product composed of tiny, fossilized diatoms that accumulated over millennia in fresh water lakes. When mined and left untreated, this fine powder offers versatile applications for home, yard, and garden. This 10-pound bag is food-grade, 100% chemical-free, and OMRI Listed for organic use.

- **Natural Product:** 100% chemical-free, made from food-grade freshwater diatomaceous earth with no additives or fillers.
- **OMRI Listed:** Certified for organic use in farming and gardening.
- **Versatile Applications:** Suitable for various uses, including pest control and as a dietary supplement.
- **Dietary Compatibility:** Vegan, Keto, and Gluten-Free.
- **High Purity:** Trusted brand with the highest purity standard.

2. Safety Information

Important Safety Precautions:

- Use with caution around children and pets.
- Avoid inhalation of dust. Work areas should be equipped with adequate dust collection or exhaust ventilation.
- Avoid direct skin contact.
- Wear respiratory protection and goggles when handling large quantities or in dusty environments.
- If ingested, seek medical help immediately.
- In case of eye contact, flush with clean water to remove dust.
- Remove to fresh air if inhalation occurs.
- Keep out of reach of children.

This product is for use as an inert carrier or anti-caking agent to be mixed in animal feed, in an amount not to exceed 2% by weight of total ration.

3. Usage Instructions

3.1. Pest Control (General)

Diatomaceous Earth works by dehydrating insects with exoskeletons. The fine powder absorbs lipids from the waxy outer layer of insects, causing them to dry out and die. This method is effective against various pests.

3.2. Garden and Outdoor Pest Control

Apply a thin layer of Diatomaceous Earth powder around plants, garden beds, and along the perimeter of your yard to deter pests like ants, slugs, and other crawling insects. Reapply after rain or heavy watering.

Image: Diatomaceous Earth applied to garden plants for pest control.

For targeted application in gardens, a powder duster can be used to spread the diatomaceous earth evenly over plants and soil. This helps to repel various garden pests naturally.

3.3. Indoor and Pet Pest Control

For indoor pest control, sprinkle a thin layer of Diatomaceous Earth along baseboards, window sills, and other areas where insects may enter or hide. For pets, food-grade DE can be lightly dusted onto their coats to help with fleas and ticks, or mixed into their food as an anti-caking agent to aid in parasite cleansing. Always consult a veterinarian before administering to pets.

3.4. Personal Consumption (Food Grade Only)

As a food-grade product, Diatomaceous Earth can be consumed internally. The recommended dosage is typically 1-2 teaspoons twice daily. Start with a small amount and gradually increase. Do not exceed 2 tablespoons daily. It is crucial to stay hydrated when consuming DE. It can be mixed into water, smoothies, tea, coffee, or juices.

Image: Diatomaceous Earth can be easily mixed into daily drinks.

Always consult with a medical professional before starting any new dietary supplement regimen.

4. Product Specifications

Brand	Diatomaceous Earth
Item Weight	10 Pounds
Item Form	Powder
Model Number	DE10
Product Dimensions	16 x 9 x 7 inches
Unit Count	160.0 Ounce

UPC	642014795345, 043971293781, 062095372585, 799198589045, 694211203123, 060917541058, 716080033363, 722544717458
