SETUP

The KETTLER Palma 4-Position Folding Chair arrives fully assembled and ready for immediate use. No additional tools or assembly steps are required.

1. Carefully remove the chair from its packaging.

2. Unfold the chair by gently pulling the seat and backrest apart until it locks into the upright position. Ensure all locking mechanisms are engaged before sitting.
3. Place the chair on a stable, level surface.

OPERATING INSTRUCTIONS

Adjusting Recline Positions

The KETTLER Palma chair features a 4-position reclining backrest for personalized comfort. To adjust the recline:

1. While seated, slightly lift your weight off the backrest.
2. Gently push the backrest forward to disengage the locking mechanism.
3. Lean back to the desired position. The backrest will click into one of the four available positions.
4. Ensure the backrest is securely locked in place before fully leaning back.

Folding and Storage

To fold the chair for compact storage or transport:

1. Ensure the backrest is in the most upright position.
2. Stand in front of the chair and grasp the front edge of the seat.
3. Lift the seat upwards while simultaneously pushing the backrest forward. The chair will collapse into a flat, compact form.
4. Store the folded chair in a dry, protected area.

MAINTENANCE AND CARE

Proper care will extend the life and appearance of your KETTLER Palma chair.

- **Cleaning:** Wipe clean with a damp cloth and mild soap. Avoid abrasive cleaners or harsh chemicals, as these can damage the resin material. Rinse thoroughly with water and dry completely.

- **Storage:** When not in use for extended periods, especially during harsh weather conditions (e.g., extreme cold, heavy rain, direct prolonged sunlight), it is recommended to store the chair indoors or cover it with a protective outdoor furniture cover.
- **Inspection:** Periodically check all moving parts and connections to ensure they are secure.

TROUBLESHOOTING

If you encounter any issues with your KETTLER Palma chair, refer to the following common solutions:

- **Difficulty Adjusting Recline:** Ensure you are slightly lifting your weight off the backrest before attempting to adjust. The mechanism requires a slight forward push to disengage.
- **Difficulty Folding:** Make sure the backrest is in the most upright position. Apply even pressure when lifting the seat and pushing the backrest forward. Do not force the mechanism.
- **Chair Feels Unstable:** Verify that the chair is placed on a flat, level surface. Check that all parts are fully extended and locked into position.
