LIFETIME 22804

Lifetime 22804 Granite Classic Commercial Folding Chair Instruction Manual

Brand: LIFETIME

Model: 22804

1. PRODUCT OVERVIEW

The Lifetime 22804 Granite Classic Commercial Folding Chair is constructed from high-impact polyethylene, designed for both comfort and durability. It features a blow-molded seat and back in a white granite finish, supported by a gray steel frame. This chair offers superior strength, exceeding demanding BIFMA standards with its steel oval tubing and all-weather powder-coated finish. Non-marring durable foot caps are included to prevent floor damage. These folding chairs are lightweight, easy to clean, and suitable for both indoor and outdoor use.

3. SETUP

The Lifetime 22804 folding chair is designed for quick and easy setup and storage. To unfold the chair, simply grasp the top of the backrest and the front edge of the seat, then pull them apart until the chair legs lock into place. Ensure all four legs are fully extended and stable before use. To fold the chair for storage, locate the locking mechanisms on the underside of the seat or along the frame, release them, and then push the seat and backrest together until the chair is flat.

4. OPERATING INSTRUCTIONS

Once fully unfolded and stable, the Lifetime 22804 chair is ready for use. The contoured seat and back are designed to provide ergonomic support, making it comfortable for various activities and durations. The wide seat and tall back accommodate a range of users. This chair is suitable for both indoor environments, such as homes, offices, or event halls, and outdoor settings like patios, gardens, or camping trips, thanks to its all-weather finish. Always ensure the chair is placed on a stable, level surface to prevent tipping. Avoid standing on the chair or using it as a step stool, as this may compromise stability and lead to injury or damage to the chair.

5. MAINTENANCE

Maintaining your Lifetime 22804 chair is straightforward due to its durable materials. The high-impact polyethylene seat and back are stain-resistant and can be easily cleaned. For general cleaning, simply wipe the surfaces with a damp cloth and mild soap. Avoid using abrasive cleaners or harsh chemicals, as these may damage the finish. The steel frame features an all-weather powder-coated finish, which helps prevent rust and corrosion. Periodically inspect the frame for any signs of wear or damage. While designed for outdoor use, storing the chairs in a sheltered area when not in use can further extend their lifespan and maintain their appearance.

6. TROUBLESHOOTING

The Lifetime 22804 chair is built for durability and reliability. Should you encounter any issues, consider the following:

- **Chair Instability:** Ensure all legs are fully extended and locked into place. Verify the chair is on a flat, stable surface.
- **Difficulty Folding/Unfolding:** Check for any obstructions in the folding mechanism. Ensure the locking mechanisms are properly engaged or disengaged.
- **Surface Scratches:** The chair is equipped with non-marring foot caps. If scratches occur, inspect the foot caps for wear or displacement.

For persistent issues or concerns not addressed here, please refer to the warranty information for support options.

7. SPECIFICATIONS

Attribute	Detail
