HOT TOOLS 1103

HOT TOOLS Pro Artist 24K Gold Curling Iron User Manual

Model: 1103 | Brand: HOT TOOLS

INTRODUCTION

This user manual provides comprehensive instructions for the safe and effective operation, maintenance, and troubleshooting of your HOT TOOLS Pro Artist 24K Gold Curling Iron. Please read this manual thoroughly before first use and retain it for future reference.

SAFETY INFORMATION

As with all electrical appliances, important safety precautions should be followed. Please refer to the product manual included with your curling iron for all specific safety warnings and guidelines. Always ensure the appliance is unplugged when not in use and before cleaning. Keep away from water. Do not use near bathtubs, showers, basins or other vessels containing water.

PRODUCT OVERVIEW

The HOT TOOLS Pro Artist 24K Gold Curling Iron is designed to create long-lasting, defined curls and waves. Its 24K gold barrel ensures even heat distribution for consistent styling results. The iron features proprietary Pulse Technology for rapid heat-up and temperature recovery, along with variable heat settings suitable for all hair types.

Key Features:

- **24K Gold Barrel:** This versatile gold curling iron and wand is the tool of choice for professional stylists. Barrel helps you create defined curls.
- **Long-Lasting:** Go for the gold for gorgeous curls and waves. Heats up quickly and holds heat evenly. That means faster styling and locked-in results.
- **Versatile Styling:** Whether you choose to use as a traditional curling iron or wrap hair around the barrel to use as a wand.
- **All Hair Types:** A high heat reach of up to 430°F provides beautiful results for all hair types from thin to coarse and in between.
- **Easy Storage:** Foldaway safety stand for easy storage. Enjoy free range of movement with 8ft. tangle-free swivel cord.
- **Stylists Preferred:** Hot Tools heritage is rooted in the professional community. We're proud we've been a trusted, stylist-recommended brand since we began in 1990.

The HOT TOOLS Pro Artist 24K Gold Curling Iron, 1/2 inch barrel size.

PROFESSIONAL RESULTS ON ALL HAIR TYPES

Achieve professional results on various hair types with this curling iron.

24K GOLD SURFACE
CREATES CONSISTENT
HEAT TEMPERATURE
UP TO 430°F

The 24K Gold Surface ensures consistent heat temperature up to 430°F.

Variable heat settings for custom styling, controlled by a rheostat dial.

SETUP

1. Unpack the curling iron and remove all packaging materials.
2. Place the curling iron on a heat-resistant surface, ensuring the foldaway safety stand is deployed.
3. Plug the appliance into a standard electrical outlet. Ensure the voltage matches the requirements of your region.

OPERATING INSTRUCTIONS

Follow these steps for optimal curling results:

1. Ensure hair is clean, dry, and detangled before styling.
2. Turn on the curling iron using the separate on/off switch. The "on" indicator light will illuminate.
3. Select your desired heat setting using the rheostat control dial. Lower temperatures are recommended for fine or damaged hair, while higher temperatures are suitable for thick or coarse hair. Allow the iron to heat up completely.

4. Section your hair into manageable portions.
5. For traditional curls: Open the clamp, place the ends of a hair section under the clamp, and roll the iron up towards the roots. Hold for a few seconds, then release the clamp and gently slide the iron out.
6. For spiral curls or waves: Clamp down on hair, leaving ends out. Curl hair towards roots, holding for a few seconds, then release. Continue curling small sections, alternating directions for more volume.
7. Repeat for all sections of hair.
8. After styling, turn off the curling iron and unplug it from the outlet. Allow it to cool completely before storing.

MAINTENANCE

- Always unplug the appliance and allow it to cool completely before cleaning.
- Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Ensure no moisture enters the electrical components.
- Store the curling iron in a safe, dry place when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Iron does not heat up.	Not plugged in, power switch off, or electrical outlet issue.	Ensure the iron is securely plugged into a working outlet and the power switch is on. Check your circuit breaker.
Hair not curling effectively.	Temperature too low, hair too wet, or sections too large.	Increase temperature setting. Ensure hair is completely dry. Use smaller hair sections.
Iron is too hot.	Temperature setting too high for hair type.	Reduce the temperature setting using the rheostat dial.

SPECIFICATIONS

Feature	Detail
Model Number	1103
Product Dimensions	15.3 x 2.3 x 5.5 inches; 8 ounces
