## Omega M1000

# Omega M1000 Commercial Milk Shake Maker Single Spindle Instruction Manual

Model: M1000

## INTRODUCTION

---

The Omega M1000 Commercial Milk Shake Maker is designed for efficient and consistent mixing of various beverages and batters. This single spindle unit features a powerful 1/3 horsepower motor and a durable stainless steel mixing cup, ideal for creating frothy milkshakes, malted milks, and other blended items. This manual provides essential information for the safe and effective operation, maintenance, and care of your appliance.

## SAFETY PRECAUTIONS

---

To ensure safe operation and prevent damage to the appliance or injury, please observe the following precautions:

- Always unplug the unit from the power outlet before cleaning or when not in use.
- Do not immerse the motor base in water or other liquids.
- Keep hands, utensils, and clothing away from the mixing spindle during operation.
- Ensure the mixing cup is properly seated before starting the machine.
- Do not operate the appliance with a damaged cord or plug, or if it malfunctions or has been dropped or damaged.
- This appliance is intended for commercial use. Use only as directed in this manual.

## COMPONENTS

---

The Omega M1000 Commercial Milk Shake Maker includes the following main components:

- Motor Base with Spindle
- Removable Stainless Steel Mixing Cup (28 oz capacity)
- Control Knob (for speed selection and pulse function)

Image: A close-up view of the stainless steel mixing cup, featuring the Omega logo.

Before first use, ensure all packaging materials are removed and the unit is placed on a stable, level surface. Clean the mixing cup and spindle according to the cleaning instructions.

1. Unpack the milk shake maker and all its components.
2. Wipe the motor base with a damp cloth. Do not submerge.
3. Wash the stainless steel mixing cup and removable spindle with warm, soapy water, then rinse thoroughly and dry.
4. Place the unit on a clean, dry, and stable countertop.
5. Ensure the power cord is accessible and can be plugged into a grounded 120V outlet.

## OPERATING INSTRUCTIONS

---

The Omega M1000 features three speeds and a pulse function for versatile mixing. Follow these steps for operation:

1. **Prepare Ingredients:** Add your desired ingredients into the stainless steel mixing cup. Do not overfill; ensure there is enough space for mixing without spillage.
2. **Position Cup:** Place the mixing cup onto the cup rest. The cup should slide into position easily.
3. **Engage Mixing:** Gently push the mixing cup upwards into the safety interlock. This action will activate the mixing spindle.
4. **Select Speed:** Use the control knob to select one of the three available speeds (Low, Medium, High) or the Pulse function for short bursts of mixing.
5. **Mix:** Allow the machine to mix until the desired consistency is achieved. The powerful motor and spindle will aerate mixtures for smooth results.
6. **Stop Mixing:** Pull the mixing cup downwards to disengage the safety interlock and stop the mixing action.
7. **Remove Cup:** Carefully remove the mixing cup from the unit.

**Note:** The machine will only operate when the cup is correctly engaged with the safety interlock.

## CLEANING AND MAINTENANCE

---

Regular cleaning and proper maintenance will extend the life of your Omega M1000 Milk Shake Maker.

1. **Unplug:** Always unplug the unit from the power outlet before cleaning.
2. **Clean Spindle:** For quick cleaning, fill the mixing cup with warm, soapy water and engage it on the machine for a few seconds. For thorough cleaning, the spindle is removable. Carefully detach it and wash with warm, soapy water. Rinse and dry completely.
3. **Clean Mixing Cup:** The stainless steel mixing cup is dishwasher safe. Alternatively, wash it by hand with warm, soapy water, rinse, and dry.
4. **Clean Motor Base:** Wipe the exterior of the motor base with a damp cloth. Do not use abrasive cleaners or immerse the base in water.
5. **Storage:** Store the appliance in a clean, dry place when not in use.

## TROUBLESHOOTING

---

If you encounter issues with your Omega M1000, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not turn on.	Not plugged in; cup not engaged; power outage.	Ensure unit is plugged into a live outlet. Verify the mixing cup is fully pushed up into the safety interlock. Check circuit breaker.
Poor mixing results.	Ingredients too thick; incorrect speed; spindle dirty or damaged.	Adjust ingredient consistency. Select a higher speed. Clean or inspect the spindle for damage.
Motor overheats or smokes.	Overuse; blocked ventilation; motor fault.	Immediately unplug the unit. Allow it to cool down. Ensure ventilation slots are clear. If problem persists, discontinue use and contact customer support.
Excessive vibration or noise.	Unstable surface; damaged spindle; foreign object.	Place unit on a stable, level surface. Inspect spindle for bends or damage. Check for any foreign objects in the mixing area.

## SPECIFICATIONS

---

Feature	Detail
Brand	Omega
Model	M1000 (Commercial Milk Shake Maker Single Spindle)
Color	Black
Product Dimensions (D x W x H)	7.09" x 7.68" x 19.97"
