UniFlame F-7547

UniFlame 5-Piece Satin Pewter Fireplace Tools Set

MODEL: F-7547

Introduction

This manual provides instructions for the assembly, operation, and maintenance of your UniFlame 5-Piece Satin Pewter Fireplace Tools Set, Model F-7547. This set is designed to assist in the safe and efficient management of your fireplace, offering both functionality and a classic aesthetic.

The set includes a sturdy stand, a brush broom, a shovel, tongs, and a poker, all crafted from steel and cast iron with a satin pewter finish. The handles are designed for an easy grip and the tools hang neatly on the integrated hooks of the stand for organized storage.

Setup

The UniFlame Fireplace Tools Set is designed for simple and quick assembly. Follow these steps to set up your new fireplace tool set:

1. Unpack all components from the packaging. Ensure all five tools (poker, tongs, shovel, brush broom) and the pedestal stand are present.
2. Assemble the pedestal stand according to the included diagrams. This typically involves attaching the main pole to the base.
3. Once the stand is assembled, carefully hang each tool onto its designated hook on the stand. The handles are designed to fit securely.
4. Place the assembled tool set on a stable, flat surface near your fireplace, ensuring it is within easy reach but away from direct heat when the fireplace is in use.

Operating Instructions

Each tool in your UniFlame set serves a specific purpose for managing your fireplace safely and effectively:

- **Poker:** Use the poker to safely move and adjust logs within the firebox, ensuring proper air circulation for a consistent burn.
- **Tongs:** The tongs are designed to grasp and place kindling or smaller logs into the fire, maintaining a safe distance from the flames.
- **Shovel:** After the fire has completely cooled, use the shovel to scoop ash and debris from the firebox.
- **Brush Broom:** The brush broom is used in conjunction with the shovel to sweep remaining ash and

small particles into the shovel for disposal.

Always ensure the fire is completely extinguished and cooled before performing any cleaning or maintenance tasks inside the firebox.

Maintenance

Proper maintenance will ensure the longevity and appearance of your UniFlame Fireplace Tools Set:

- **Cleaning:** Wipe down the satin pewter finish with a soft, dry cloth regularly to remove dust and soot. For stubborn marks, a damp cloth with mild soap can be used, followed by immediate drying to prevent water spots. Avoid abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Brush Care:** Periodically clean the bristles of the brush broom to remove accumulated ash and debris. You can gently tap it against a hard surface or use a stiff comb to dislodge particles.
- **Handle Tightness:** Occasionally check the decorative tops and handles of the tools to ensure they remain securely tightened. If any become loose, gently screw them back into place.
- **Storage:** Always store the tools on their stand when not in use to prevent damage and maintain an

organized appearance.

Troubleshooting

Should you encounter any issues with your fireplace tool set, consider the following:

- **Loose Handles/Tops:** If the decorative tops or handles on any tool become loose, gently twist them clockwise to tighten. Avoid over-tightening, which could strip the threads.
- **Scratches or Dents:** While the set is made from sturdy materials, minor cosmetic imperfections such as scratches or small dents may occur with use. These typically do not affect the functionality of the tools.
- **Tools Not Hanging Properly:** Ensure each tool is correctly seated on its respective hook on the stand. The design allows for secure hanging.

Specifications

Product Dimensions	31 x 9.5 x 31 inches (Height x Width x Depth)
Item Weight	11.65 pounds
Manufacturer	UniFlame
Model Number	F-7547
Finish Type	Satin Pewter
