

Invicta 0069

Invicta Men's Pro Diver Collection Chronograph Watch

MODEL: 0069

Introduction

This manual provides essential instructions for the proper use and care of your Invicta Men's Pro Diver Collection Chronograph Watch, Model 0069. This timepiece features a 48mm stainless steel case, a black dial, and chronograph functions, designed for reliability and performance.

Image: Invicta Pro Diver watches, highlighting the collection's design and functionality.

Safety Precautions

Please read and understand all safety instructions before using your watch. Important instructions are categorized and depicted with symbols as follows:

DANGER: Highly likely to cause death or serious injury.

WARNING: Can cause serious injury or death.

CAUTION: Can or will cause minor or moderate injury or damage.

WARNING: INGESTION HAZARD

This product contains a button cell or coin battery. DEATH or serious injury can occur if ingested. A swallowed button cell or coin battery can cause Internal Chemical Burns in as little as 2 hours. Keep new and used batteries OUT OF REACH OF CHILDREN. Seek immediate medical attention if a battery is suspected to be swallowed or inserted inside any part of the body.

WARNING: BATTERY SAFETY

- This product is intended to be opened only by professionals.
- Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children.
- Do NOT dispose of batteries in household trash or incinerate.
- Even used batteries may cause severe injury or death.
- Non-rechargeable batteries are not to be recharged.
- Do not force discharge, recharge, disassemble, heat above (manufacturer's specified temperature rating) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.

Setup

Setting Time and Date

1. **Pull the Crown:** Gently pull the crown (the knob on the side of the watch) out to the first or second position, depending on your watch model and whether you are setting the date or time.
2. **Adjust Time/Date:** Rotate the crown to set the desired time and date. For date setting, ensure you do not set the date between 9 PM and 3 AM to avoid damaging the movement.
3. **Push the Crown:** Once set, push the crown back into its original position to engage the movement and ensure water resistance.

Band Adjustment

The stainless steel band is adjustable by adding or removing links. This procedure typically requires specialized tools and is best performed by a qualified watch technician to prevent damage to the band or clasp.

BRACELET

FOLDOVER SAFETY CLASP

For added security while wearing the timepiece

HIGH-GRADE STAINLESS STEEL BAND

For ultimate durability and comfort

Image: Detailed view of the watch bracelet and foldover safety clasp, illustrating the high-grade stainless steel construction.

Operating Your Watch

Crown Operation

The watch features a push/pull crown for setting the time and date. Ensure the crown is fully pushed in to maintain the watch's water resistance.

Uni-directional Rotating Bezel

The uni-directional rotating bezel can be used for functional tracking of elapsed time, such as dive times or other timed events. Rotate the bezel counter-clockwise to align the marker with the minute hand at the start of your timed event.

Chronograph Functions

The watch is equipped with a Japanese quartz chronograph movement (VD53 Caliber) featuring functional subdials:

- **60-minute subdial:** Measures elapsed time up to 60 minutes.
- **60-second subdial:** Functions as the running second hand for the main time display.
- **24-hour subdial:** Indicates the time in a 24-hour format.

The large central second hand is used for the chronograph timer function. Use the pushers on the side of the case to start, stop, and reset the chronograph.

Image: Exploded view highlighting the crown, unidirectional rotating bezel, 48mm case size, and Flame Fusion crystal.

MOVEMENT

QUARTZ CHRONOGRAPH
To measure and keep track of different sets of time in addition to the current time on a dial. A true celebration of traditional watchmaking.

TIMEKEEPING

Second, Minute and 24 hour subdial; for more precise timekeeping.

DATE-DISPLAY

Accurately keep track of the date with easily visible date display

Image: Illustration of the quartz chronograph movement, detailing the timekeeping subdials and the date display.

Water Resistance

This watch is water resistant to 200 meters (660 feet), making it suitable for professional marine activity

and surface water sports, as well as diving. Always ensure the crown is fully pushed in before exposing the watch to water.

Image: Water resistance chart indicating suitability for various water activities, confirming 200M rating for diving.

Maintenance

Crystal Care

The watch features a Flame Fusion crystal, known for its extra scratch resistance. While durable, avoid unnecessary impacts to maintain its integrity.

Battery Replacement

The watch uses an SR920SW battery. Battery replacement should be performed by a qualified watch technician to ensure proper sealing and maintain water resistance.

General Care

- Avoid exposing the watch to strong magnetic fields, as this can affect timekeeping accuracy.
- Clean the watch regularly with a soft, damp cloth. For stainless steel bands, a mild soap solution can be used, followed by thorough rinsing and drying.
- Avoid extreme temperature changes.

Troubleshooting

- **Watch not running:** Check if the crown is fully pushed in. If the watch still does not run, the battery may need replacement.
- **Inaccurate timekeeping:** Ensure the watch has not been exposed to strong magnetic fields. If issues persist, professional inspection may be required.
- **Chronograph not resetting to zero:** This may indicate a need for calibration, which should be performed by a watch technician.

Specifications

- **Case Material:** Stainless Steel
- **Case Diameter:** 48mm
- **Case Thickness:** 12.5mm
- **Dial:** Black, Luminous hands and hour markers
- **Movement:** Japanese Quartz, VD53 Caliber
- **Battery:** SR920SW (1 Lithium Ion battery included)
- **Band Material:** Stainless Steel
- **Band Length:** 215mm
- **Band Width:** 26mm
- **Crystal:** Flame Fusion
- **Crown:** Push/Pull
- **Bezel:** Uni-directional stainless steel with black and white top ring
- **Functional Subdials:** 60min, 60sec, 24 hour
- **Water Resistance:** 200 meters (660 feet)
- **Watch Weight:** 307 grams
- **Product Dimensions:** 3.54 x 4.49 x 3.86 inches (packaging)
- **Item Model Number:** 0069
