REVLON RV052CP

Revlon Perfect Heat Triple Ceramic Curling Iron User Manual

MODEL: RV052CP

INTRODUCTION

This user manual provides detailed instructions for the safe and effective use of your Revlon Perfect Heat Triple Ceramic Curling Iron. Designed for optimal heat distribution and reduced heat damage, this curling iron helps you achieve beautiful, long-lasting curls. Please read this manual thoroughly before first use and keep it for future reference.

IMPORTANT SAFETY INFORMATION

To ensure safe operation and prevent injury or damage, please observe the following safety precautions:

- Keep the curling iron in a dry location.
- Start at lower temperatures to reduce heat damage, especially for fine or thin hair.
- Do not use this appliance near water or while bathing.
- Always unplug the appliance immediately after use.
- Do not place or store the appliance where it can fall or be pulled into a tub or sink.
- Keep out of reach of children.
- Do not operate if the cord or plug is damaged.

Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

PRODUCT FEATURES

Your Revlon Perfect Heat Triple Ceramic Curling Iron is equipped with several features designed for superior performance and ease of use:

- **New Design:** Features an improved thumb rest, a heat dial with resistance to prevent accidental temperature changes, and an ergonomic handle for comfortable styling.
- **Triple Ceramic Coating:** Helps reduce damage from over-styling by providing even heat distribution, making styling fast and easy.
- **Multiple Heat Settings:** Offers 30 heat settings, with high heat up to 400°F, providing complete styling flexibility and control for all hair types.
- **Fast Heat-Up:** Reaches desired temperature in just 30 seconds.
- **Auto Shut-off:** For peace of mind, the curling iron automatically shuts off after a period of inactivity.
- **Dual Voltage:** Allows for convenient use anywhere in the world.
- **6 ft Swivel Cord:** Prevents tangles and provides flexibility during use.
- **Cool Tip:** Provides a safe area to hold the barrel during styling.
- **Integrated Heat Stand:** For safe placement on surfaces during use.

SETUP

1. **Unpack:** Carefully remove the curling iron from its packaging. Ensure all components are present and undamaged.
2. **Inspect:** Check the power cord and plug for any signs of damage. Do not use if damaged.
3. **Placement:** Place the curling iron on a heat-resistant surface, utilizing the integrated heat stand. Ensure it is away from water and flammable materials.
4. **Plug In:** Insert the plug into a suitable electrical outlet. The curling iron is dual voltage, making it suitable for international travel with the appropriate adapter (not included).

OPERATING INSTRUCTIONS

Powering On and Setting Temperature

1. **Turn On:** Press and hold the ON/OFF button for 3 seconds. The indicator light will illuminate, signaling that the iron

is heating up.

- 2. **Select Heat Setting:** Rotate the heat dial to your desired temperature setting. The curling iron offers 30 heat settings. Refer to the table below for recommended settings based on hair type.
- 3. **Heat-Up Time:** Allow approximately 30 seconds for the curling iron to reach the selected temperature.

Image: Close-up of the heat dial, showing settings from 1 to 30 for precise temperature control.

Recommended Heat Levels

Hair Type	Heat Level
Fine, thin hair	1-2
Normal hair	3-15
Thick, wavy hair	16-30

Curling Techniques

For best results, ensure hair is clean and dry before styling. Use a heat protectant spray.

- 1. **Section Hair:** Divide your hair into manageable sections, typically 1-2 inches wide, depending on the desired curl size.
- 2. **Wrap Hair:** Open the clamp and place the end of a hair section under it. Close the clamp and roll the iron up towards the scalp, ensuring the hair is wrapped smoothly around the barrel. Alternatively, for a looser curl, you can wrap hair around the barrel without using the clamp.
- 3. **Hold:** Hold the iron in place for 5-10 seconds. The exact time will vary based on your hair type and the desired curl intensity.
- 4. **Release:** Open the clamp and gently release the curl. Allow the curl to cool completely before touching or brushing to set the style.
- 5. **Repeat:** Continue with remaining sections of hair.

MAINTENANCE

Cleaning

- Always unplug the curling iron and allow it to cool completely before cleaning.
- Wipe the barrel and handle with a soft, damp cloth.
- Do not use abrasive cleaners or harsh chemicals, as these can damage the ceramic coating.
- Ensure the curling iron is completely dry before storing or next use.

Storage

- Store the curling iron in a cool, dry place.
- Do not wrap the cord around the appliance, as this can cause damage to the cord.
- Keep out of reach of children.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Curling iron does not turn on.	Not properly plugged in; power outlet issue; ON/OFF button not held long enough.	Ensure the plug is fully inserted into a working outlet. Press and hold the ON/OFF button for 3 seconds.
Curling iron turns off unexpectedly during use.	Accidental press of the ON/OFF button; auto shut-off activated; power interruption.	Be mindful of hand placement on the ON/OFF button. If auto shut-off, simply turn it back on. Check power connection.
Hair does not curl or curls are loose.	Temperature setting too low; hair not held long enough; hair too wet; incorrect technique.	Increase the heat setting. Hold hair on the barrel for a longer duration. Ensure hair is completely dry. Review curling techniques.
Curling iron is too hot or causes damage.	Temperature setting too high for hair type; no heat protectant used.	Lower the heat setting. Always use a heat protectant spray. Do not hold hair on the barrel for excessive periods.

SPECIFICATIONS
