# Step2 Naturally Playful Sand Table User Manual

Model: 759499

## INTRODUCTION

The Step2 Naturally Playful Sand Table is designed to bring imagination to life for children aged 24 months to 10 years. This versatile outdoor playset offers endless opportunities for creativity, sensory exploration, and engaging playtime. Its innovative design allows multiple children to play together, fostering cooperation and imaginative storytelling. Built with high-quality, double-walled plastic construction, it ensures durability and long-lasting play, with colors that resist chipping, fading, cracking, or peeling.

*The Step2 Naturally Playful Sand Table, ready for play.*

## PRODUCT FEATURES

- **STEM TOYS:** Indoor/Outdoor playset, hands-on sensory play that boosts creativity and problem-solving.
- **SENSORY TABLE:** Includes a 5-piece sand accessory set (shovel, rake, bucket), molded-in roadways on the lid for a race track, and holds up to 80 lbs. of sand (sand not included).
- **OPEN PLAY:** Sand table designed for multiple children, suitable for kinetic sand, beans, or soil. Dimensions: 16.375" H x 36" W x 26" D inches.

- **EASY TO CLEAN:** Can be wiped or hosed down. Features elastic tie-downs on ends of the lid to cover securely.
- **DURABLE:** Constructed with double-walled plastic for years of use, with colors that resist chipping, fading, cracking, or peeling.

## SETUP AND ASSEMBLY

### Assembly Instructions

Assembly of the Step2 Naturally Playful Sand Table is straightforward, primarily involving attaching the legs to the main basin. Follow these steps for a secure setup:

1. **Unpack Components:** Carefully remove all parts from the packaging. Ensure you have the sand table basin, four legs, and the 5-piece accessory set.
2. **Attach Legs:** Align each leg with the corresponding slot on the underside of the sand table basin. Apply firm, even pressure to snap each leg into place. You may need to wiggle or twist slightly to ensure a secure fit.
3. **Tip for Leg Assembly:** Some users have found that applying a small amount of dish soap to the top of the leg posts before insertion can help them slide into place more easily. Once inserted, ensure they are fully seated for stability.
4. **Verify Stability:** Once all legs are attached, gently rock the table to ensure it is stable and all connections are secure.

Holds up to

**80 lbs.**

**of sand** (36.3 kg)

*Can also be used inside with beans or macaroni for more sensory play*

*Product dimensions: 16.4 inches high, 36 inches wide, 26 inches deep.*

## OPERATING INSTRUCTIONS

### Filling the Sand Table

The sand table can hold up to 80 lbs. (36.3 kg) of play sand. You can also use other sensory materials such as kinetic sand, beans, or soil for varied play experiences. Ensure the table is on a flat, stable surface before filling.

### Using the Lid

The included lid serves multiple purposes:

- **Protection:** Use the lid to cover the sand when not in use, protecting it from weather elements, animals, and debris.
- **Race Track:** The molded-in roadways on the lid provide a fun surface for children to play with toy cars, transforming the sand table into an interactive play area even when covered.

- **Securing the Lid:** Elastic tie-downs are located on the ends of the lid. These can be stretched and hooked onto the table's sides to keep the lid securely in place, especially during windy conditions or when storing outdoors.

*The versatile lid provides an additional play surface for toy cars.*

## Accessory Kit

The sand table comes with a 5-piece sand accessory set, including a shovel, rake, and bucket. These tools are perfectly sized for small hands and encourage digging, scooping, and creative sand play.

*The included 5-piece accessory set for enhanced play.*

*Children enjoying the sand table with the provided accessories.*

## MAINTENANCE AND CARE

### Cleaning

The Step2 Naturally Playful Sand Table is designed for easy cleaning. Simply wipe down the surfaces with a damp cloth or hose down the entire unit with water. Ensure all sand and debris are removed from the basin and accessories regularly to maintain hygiene.

### Storage

When not in use, always secure the lid using the elastic tie-downs. This will protect the sand from rain, leaves, and other outdoor elements, keeping it clean and dry for the next play session. The durable plastic construction allows for year-round outdoor storage.

# TROUBLESHOOTING

## Leg Assembly Difficulty

If you encounter difficulty snapping the legs into place during assembly, ensure you are aligning them correctly with the slots. Applying firm, consistent pressure and a slight twisting motion can help. As mentioned in the setup section, a small amount of dish soap on the leg posts can also facilitate easier insertion.

## Wet Sand After Rain

To prevent sand from getting wet during rain, always ensure the lid is properly placed and secured using both elastic tie-downs. This creates a tight seal that helps keep moisture out. If sand does get wet, allow it to dry completely before covering again to prevent mold or mildew.

# SPECIFICATIONS

Feature	Detail
Product Dimensions	36 x 26 x 16.38 inches
