

## Learning Resources LER2996

# Primary Time Teacher 12-Hour Learning Clock

MODEL: LER2996

## Introduction

---

This instruction manual provides guidance for the Learning Resources Primary Time Teacher 12-Hour Learning Clock, model LER2996. This interactive clock is designed to facilitate the learning of both analog and digital time concepts, including elapsed time. It features a geared mechanism that synchronizes the minute hand movement with a digital display, making it an effective educational tool.

## Product Features

---

- Encourages learning of both analog and digital time with an interactive design.
- Color-coded hour and minute hands correspond with color-coded window shutters for clarity.
- Durable plastic construction.
- Measures approximately 14.5 inches by 15.75 inches.

## Setup

---

The Primary Time Teacher clock requires minimal setup. Upon unboxing, ensure all components are present and undamaged. The clock is ready for immediate use.

Image: A teacher and a child engaging with the Learning Resources Primary Time Teacher clock, demonstrating its use in an educational setting.

## Operating Instructions

---

The clock is designed for intuitive operation to teach time-telling skills.

1. **Adjusting Time:** Locate the knob on the back of the clock. Rotate this knob to move the minute hand. The hour hand will automatically move in synchronization.
2. **Digital Display:** As the analog hands move, the digital display window will update to show the corresponding digital time. This feature helps students connect analog and digital representations of time.
3. **Assessing Analog Skills:** To assess a student's ability to read an analog clock without digital assistance, the digital display window can be covered or ignored.
4. **Teaching Elapsed Time:** Move the hands from a starting time to an ending time to visually demonstrate the duration between two points.

## Maintenance

---

To ensure the longevity and proper function of your Learning Resources Primary Time Teacher clock,

follow these simple maintenance guidelines:

- **Cleaning:** Wipe the clock surface with a soft, damp cloth. Avoid using abrasive cleaners or solvents, as these may damage the plastic.
- **Storage:** Store the clock in a dry place away from direct sunlight and extreme temperatures when not in use.
- **Handling:** Handle the clock with care to prevent damage to the internal geared mechanism. Avoid dropping the clock.

## Troubleshooting

If you encounter any issues with your clock, refer to the following common problems and solutions:

- **Hands Not Moving Synchronously:** If the hour hand does not move correctly with the minute hand, or if the digital display does not update, the internal gearing may have been dislodged. Gently check the knob on the back for proper engagement. If the issue persists, contact customer support.
- **Rattling Sound:** A rattling sound inside the clock may indicate that an internal component has come loose. While the mechanism is relatively simple, it is recommended to contact customer support for assistance rather than attempting to open the unit, to avoid further damage or voiding any warranty.
- **Digital Display Malfunction:** If the digital display is not showing numbers or is displaying incorrectly, ensure the hands are properly aligned. If the problem continues, it may indicate an internal electronic issue.

## Specifications

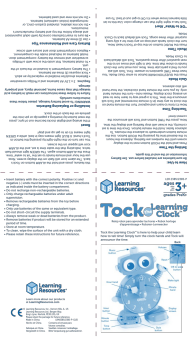

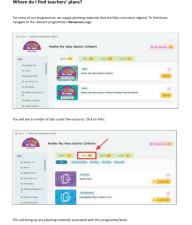

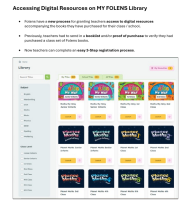

Brand	Learning Resources
Model Number	LER2996
Material Type	Plastic, Metal
Color	Multicolor
Dimensions	Approximately 14.5" x 15.75"
Number of Items	1
Manufacturer	Learning Resources CA

## Warranty and Support

Learning Resources products are designed for durability and educational effectiveness. For specific warranty information or to obtain support for your LER2996 Primary Time Teacher clock, please refer to the official Learning Resources website or contact their customer service department directly. Keep your purchase receipt as proof of purchase.

Contact information can typically be found on the manufacturer's packaging or their official website.
