## WINPLUS LM-10391-6

# WINPLUS Type S LM-10391-6 Dual Color Map Light

Model: LM-10391-6 | Brand: WINPLUS

### INTRODUCTION

---

The WINPLUS Type S LM-10391-6 Dual Color Map Light is designed to provide convenient illumination within your vehicle's interior. It features a flexible arm for adjustable positioning and offers both soft green and blue LED light options.

### Key Features:

- Plugs into standard 12V adapter sockets.
- Conveniently adjusts with a flexible arm.
- Helps illuminate your car's interior for various tasks.
- Small and compact design.
- Portable for easy transfer between vehicles.

## SETUP

---

1. Locate an available 12V accessory power socket in your vehicle.
2. Insert the map light's plug firmly into the 12V socket. Ensure a secure connection.
3. Adjust the flexible arm to position the light as desired.

## OPERATING INSTRUCTIONS

---

1. Once plugged into the 12V socket, locate the ON/OFF switch on the light unit.
2. Press the switch once to turn the light ON.
3. Press the switch again to alternate between soft green and blue LED illumination.
4. Press the switch a third time to turn the light OFF.
5. Utilize the flexible arm to direct the light to your desired area for reading maps, documents, or general interior illumination.

## MAINTENANCE

- Keep the map light clean by wiping it with a soft, dry cloth.
- Avoid using abrasive cleaners or solvents, as these may damage the product's finish.
- Ensure the 12V plug remains free of dirt or debris for optimal connection.

## TROUBLESHOOTING

### Light Does Not Turn On:

- Ensure the 12V plug is fully inserted into the vehicle's accessory socket.
- Verify that the vehicle's 12V socket is receiving power. Some vehicle sockets may only be active when the ignition is on.
- Check the ON/OFF switch on the map light to ensure it is in the 'ON' position.

**Caution: Some 12V sockets do not switch off when the ignition key is removed. Always unplug the device when not in use to prevent battery drain.**
