

TRIXIE 43331

TRIXIE 43331 Parla Cat Scratching Post Instruction Manual

INTRODUCTION

The TRIXIE 43331 Parla Cat Scratching Post is designed to provide a dedicated surface for your cat's natural scratching instincts. This post features a durable natural sisal wrapping and a soft plush base, offering both an engaging scratching area and a comfortable resting spot. It is suitable for cats of all ages and helps protect household furniture from claw damage.

Key Features:

- Plush cover for comfort.
- Post wrapped in natural sisal for effective scratching.
- Suitable for cats of all ages.
- High-quality construction.

SETUP INSTRUCTIONS

This scratching post requires minimal assembly. Please follow these steps carefully to ensure stability and proper function.

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all included components (post, base, and hardware) are present.
2. **Attach Post to Base:** Position the sisal-wrapped post vertically onto the plush-covered base. Align the pre-drilled holes.
3. **Secure with Hardware:** Use the provided screw(s) and tool (if included) to firmly attach the post to the base. Ensure the connection is tight and stable. Do not overtighten.
4. **Check Stability:** Once assembled, gently rock the scratching post to confirm it is stable and does not wobble. Adjust if necessary.

Scratch Where It Counts

Designed to satisfy scratching instincts

Durable scratching surface for daily use

Helps protect furniture from claw damage

Encourages healthy scratching habits

OPERATING INSTRUCTIONS

The TRIXIE Parla Cat Scratching Post is designed for intuitive use by your cat. Proper placement and encouragement can maximize its effectiveness.

- **Placement:** Place the scratching post in an area where your cat frequently spends time or where they currently attempt to scratch furniture. Common locations include near sleeping areas, entryways, or favorite lounging spots.
- **Encouragement:** Introduce your cat to the post. You can gently rub catnip on the sisal surface or dangle a toy near it to encourage interaction. Reward your cat with praise or treats when they use the post.
- **Multiple Posts:** For multi-cat households or larger homes, consider placing multiple scratching posts in different areas to provide ample scratching opportunities.

MAINTENANCE

Regular maintenance will extend the life of your scratching post and ensure it remains a hygienic and

appealing item for your cat.

- **Cleaning:** Wipe the plush base and sisal post with a damp cloth to remove dust, fur, and debris. For deeper cleaning, a mild pet-safe cleaner can be used on the plush areas, ensuring it is thoroughly dry before your cat uses it again.
- **Storage:** When not in use or for long-term storage, keep the scratching post in a dry place to prevent material degradation.
- **Inspection:** Periodically inspect the sisal wrapping for significant wear and tear. While sisal is durable, it will eventually fray with consistent use. Replace the post if the sisal is severely damaged or if the post becomes unstable.

TROUBLESHOOTING

If you encounter issues with your TRIXIE Parla Cat Scratching Post, consider the following common solutions:

- **Cat Not Using the Post:**
 - Try relocating the post to a more prominent or preferred area for your cat.
 - Apply catnip spray or sprinkle dried catnip on the sisal to attract your cat.
 - Engage your cat in play near the post, guiding their paws to the sisal surface.
- **Post Appears Unstable:**
 - Re-check all connections and ensure the screw(s) attaching the post to the base are tightened securely.
 - Ensure the post is placed on a flat, even surface.
- **Excessive Fraying of Sisal:**
 - Normal wear is expected. If the sisal is completely worn through or detaching significantly, it may be time to replace the scratching post to maintain its effectiveness and safety.

SPECIFICATIONS

Feature	Detail
Brand	TRIXIE
Model Number	43331
Model Name	Parla
Color	Beige
Product Dimensions (L x W x H)	39.9L x 39.9W x 62H centimeters
