Snow Peak Trek 900

Snow Peak Trek 900 Cookset Instruction Manual

1. INTRODUCTION

Thank you for choosing the Snow Peak Trek 900 Cookset. This lightweight and compact aluminum cookset is designed for efficient outdoor cooking, perfect for camping and backpacking adventures. This manual provides essential information on the components, setup, operation, and maintenance of your new cookset.

2. PRODUCT COMPONENTS

The Snow Peak Trek 900 Cookset includes the following items:

- **30 fl. oz. Aluminum Pot:** The main cooking vessel with folding handles and internal measuring levels.
- **Small Aluminum Frypan:** Doubles as a pot lid and features folding handles.
- **Nylon Mesh Storage Sack:** For convenient storage and transport of the cookset.

Figure 2: Snow Peak Trek 900 Cookset components.

3. SETUP AND ASSEMBLY

1. **Unpack Components:** Remove the pot, frypan, and mesh storage sack from the packaging.
2. **Prepare Handles:** The pot and frypan feature folding handles. Extend the handles outward until they lock securely into place for use. Fold them inward for compact storage.
3. **Nesting for Storage:** The cookset is designed to nest efficiently. A compact camping stove (such as a Snow Peak Giga Power stove) and a 110g fuel canister can be placed inside the pot for an all-in-one system. The frypan then fits securely on top as a lid.

4. OPERATING INSTRUCTIONS

4.1. Using the Pot

- The 30 fl. oz. aluminum pot is ideal for boiling water, cooking dehydrated meals, or preparing single-serving dishes.
- Internal measuring levels assist in accurately adding liquids for recipes.
- Place the pot on a stable camping stove or heat source. Ensure handles are extended and away from direct flame if they are not heat-resistant.

4.2. Using the Frypan/Lid

- The small aluminum frypan can be used independently for frying small items like eggs or heating sauces.
- It also functions as a lid for the main pot, helping to retain heat and speed up cooking times.
- When using as a frypan, extend the handles for safe handling over a heat source.

5. MAINTENANCE AND CARE

- **Cleaning:** After each use, allow the cookset to cool completely. Wash with warm water and a mild soap. The rounded bottom edges are designed for easy cleaning. Avoid abrasive scrubbers that could scratch the aluminum surface.
- **Drying:** Thoroughly dry all components before storing to prevent water spots or corrosion.
- **Storage:** Store the clean, dry cookset in its nylon mesh sack. Ensure handles are folded for compact storage. Keep in a dry place.

6. TROUBLESHOOTING

The Snow Peak Trek 900 Cookset is designed for durability and simplicity. Should you encounter any issues, please refer to the following:

- **Food Sticking:** Ensure adequate oil or cooking spray is used, especially with the frypan. Maintain a moderate heat to prevent scorching.
- **Handles Loose:** Verify that the folding handles are fully extended and locked into their operating position.
- **Difficulty Nesting:** Confirm that all internal items (stove, fuel canister) are correctly positioned and that the pot and frypan handles are folded inward.

7. SPECIFICATIONS

Feature	Specification
Model Name	Trek 900
Model Number	SCS-008
Material	Aluminum
Color	Silver
Item Weight	0.58 Pounds (approx. 263 grams)

Feature	Specification
Number of Pieces	3 (Pot, Frypan, Mesh Sack)
Item Dimensions (LxWxH)	4.75 x 4.75 x 5.5 inches
Pot Capacity	30 fl. oz. (approx. 900 ml)
