## Bulbrite FEX5/12

# Bulbrite 715605 FEX5/12 Xenon 5 Watt Festoon Light Bulb, 12 Volt

User Instruction Manual

## INTRODUCTION

This manual provides essential information for the safe and effective use of your Bulbrite 715605 FEX5/12 Xenon 5 Watt Festoon Light Bulb. Please read these instructions carefully before installation and retain them for future reference.

The Bulbrite FEX5/12 is a 5-watt, 12-volt xenon festoon light bulb designed for various low-voltage applications. It features a clear finish and offers a life expectancy of 3000-5000 hours.

## SAFETY INFORMATION

- **Electrical Hazard:** Always disconnect power to the fixture before installing, removing, or servicing the bulb. Failure to do so may result in electric shock or personal injury.
- **Heat:** Light bulbs generate heat. Allow the bulb to cool completely before handling. Do not touch the bulb with bare hands when it is operating or immediately after it has been turned off.
- **Voltage Compatibility:** Ensure the fixture's voltage matches the bulb's voltage (12 Volts). Using an incorrect voltage can damage the bulb or the fixture and poses a fire risk.
- **Proper Disposal:** Dispose of used bulbs according to local regulations.
- **Dimmable Feature:** This bulb is dimmable. Ensure your dimmer switch is compatible with low-voltage xenon bulbs.

## SETUP AND INSTALLATION

1. **Turn Off Power:** Locate the power switch or circuit breaker controlling the light fixture and turn it off. Verify that the power is off before proceeding.
2. **Remove Old Bulb (if applicable):** Carefully remove the existing bulb from the fixture. If the old bulb is hot, wait for it to cool down.
3. **Insert New Bulb:** Gently insert the Bulbrite FEX5/12 festoon bulb into the fixture's socket. Festoon bulbs typically have contacts on both ends that fit into spring-loaded terminals. Ensure a secure connection without forcing the bulb.
4. **Restore Power:** Once the bulb is securely in place, restore power to the fixture.

5. **Test:** Turn on the light switch to confirm the bulb is functioning correctly.

## OPERATING INSTRUCTIONS

The Bulbrite FEX5/12 Xenon Festoon Light Bulb operates immediately upon receiving power. Simply use the light fixture's switch to turn the bulb on or off.

If connected to a compatible dimmer switch, you can adjust the light output by manipulating the dimmer control.

## MAINTENANCE

- **Cleaning:** Ensure the power is off and the bulb is cool before cleaning. Wipe the bulb gently with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as they can damage the bulb's finish or electrical components.
- **Replacement:** When the bulb reaches the end of its life, follow the "Setup and Installation" steps to safely replace it with a new, compatible bulb.

## TROUBLESHOOTING

- **Bulb Does Not Light:**
  - Check if the power switch or circuit breaker is on.
  - Ensure the bulb is securely seated in the fixture's socket.
  - Verify that the fixture is receiving power.
  - Test the bulb in another known working fixture, or try a new bulb in the current fixture to determine if the issue is with the bulb or the fixture.
- **Bulb Flickers:**
  - Ensure the bulb is fully tightened in the socket.
  - If using a dimmer, ensure it is compatible with low-voltage xenon bulbs and is functioning correctly.
  - Check for loose wiring in the fixture or switch (consult a qualified electrician if unsure).

## SPECIFICATIONS

Feature	Detail
Brand	Bulbrite
Model Number	FEX5/12
Part Number	715605
Light Type	Xenon
Wattage	5 Watts
Voltage	12 Volts
Length	41mm
Life Expectancy	3000-5000 Hours
Finish	Clear
Special Feature	Dimmable
Color Temperature	5000 Kelvin
Material	Copper
Product Dimensions	1.68 x 0.38 x 0.38 inches
Item Weight	0.01 Ounces
UPC	739687156051
